

Transitioning towards the ETF and New Reporting Requirements

United Nations
Climate Change Secretariat

Tibor Lindovsky
Programme Officer
CGE/ETF Support unit

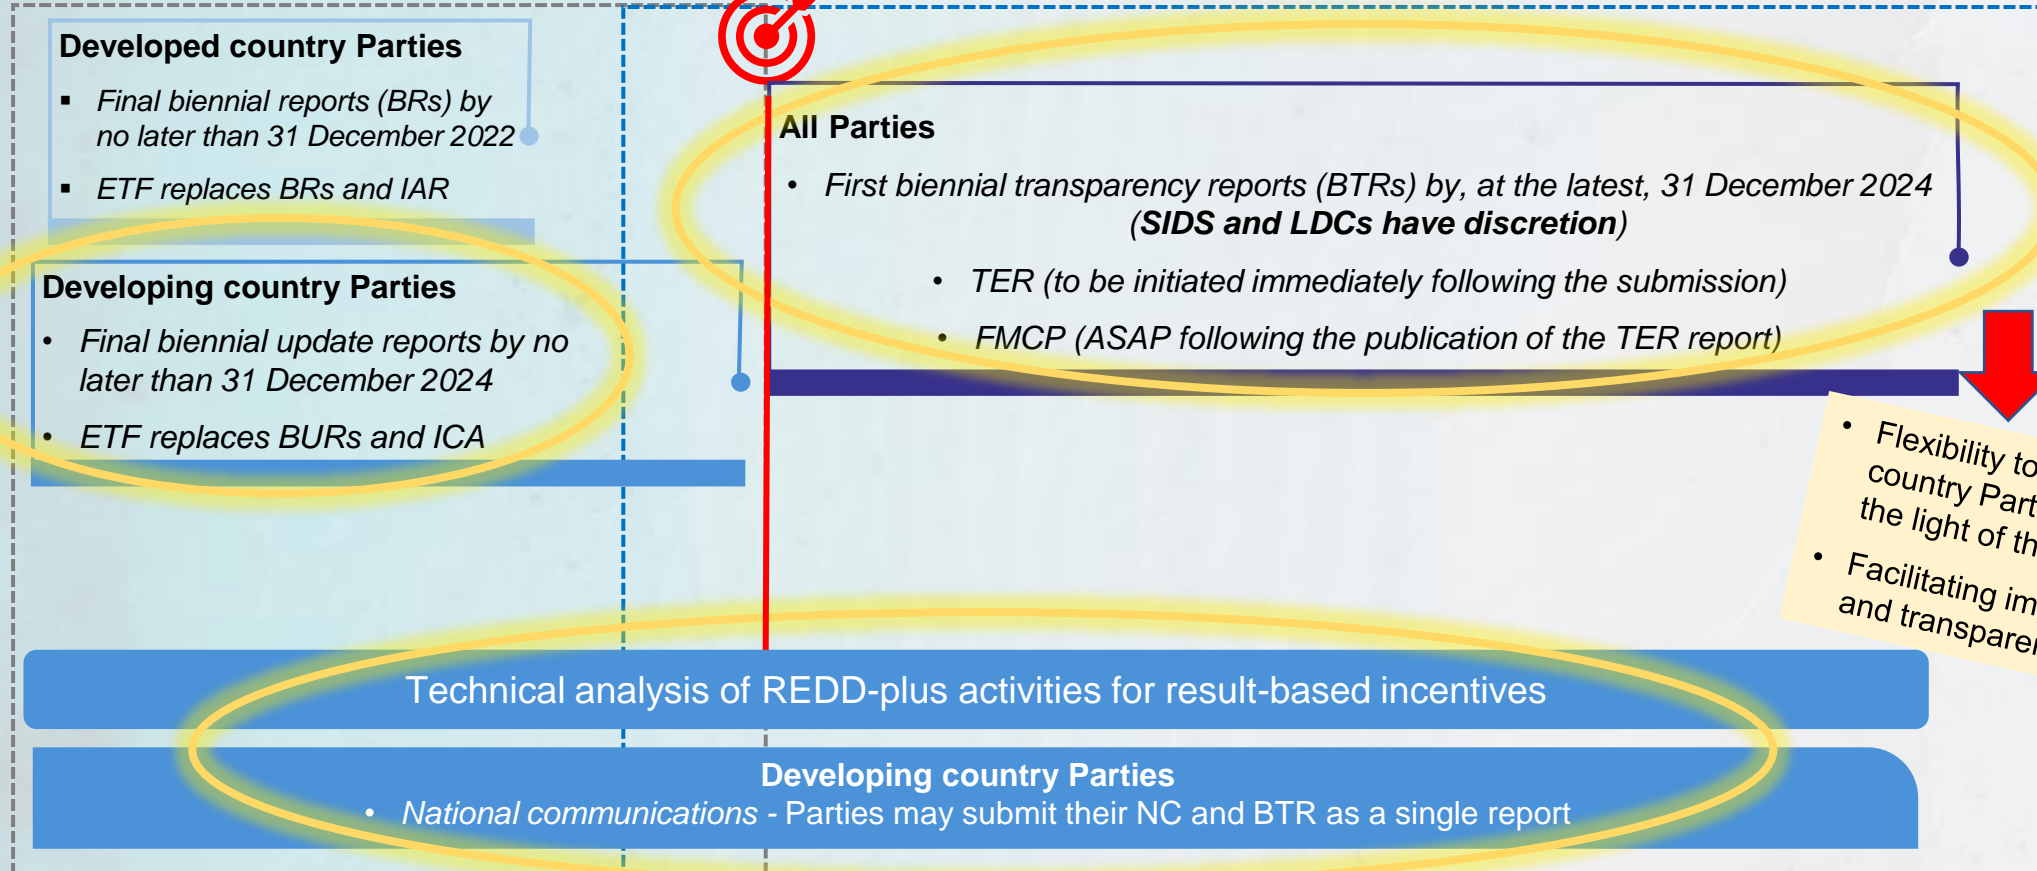

Key areas of enhancement

- Provisions/requirements - mostly mandatory (“**shall**”)
- Establishes **common modalities, procedures and guidelines (MPGs) applicable to all Parties** with **flexibility** to those developing countries that need it in the light of their capacities
- Parties need to (to the extent possible) identify, regularly update, and report on areas of improvement > **continuous improvement**
- NDCs, reporting, TER and FMCP, and their relationship to the Article 15 **Committee** (mechanism to facilitate implementation of and promote compliance)

Developing country Parties

Developed country Parties

All Parties

Existing MRV arrangements

Enhanced transparency framework

TER: technical expert review; FMCP: Facilitative, multilateral consideration of progress

- All necessary operational details are in place now for implementation of the ETF.
 - Use existing MRV arrangements as a starting point in transition to the ETF and preparation of 1st BTRs.
 - Assess readiness for ETF implementation and enhance national transparency arrangements (data, processes, procedures, tools, training/CB, institutional arrangements).
 - Focus on enhancing the institutional arrangements; use the success stories to draw inspiration from.
 - ETF goes beyond preparation of reports:
 - ✓ Understanding potential for action, informing policy design
 - ✓ Establishing channels to ensure adequate support,
 - ✓ Platform to learn from each other.
- Design the process to bring together all relevant stakeholders and discuss national benefits with a view to facilitate political buy-in and HL support for implementation of the ETF.
- **GEF has already put in place arrangements for the financial resources for BTRs**
 - **Start accessing funds from the GEF as soon as possible!**

Thank you
