

**CLOSING STATEMENT BY TRAN HONG HA, MINISTER OF NATURAL  
RESOURCES AND ENVIRONMENT, MINISTRY OF NATURAL RESOURCES  
AND ENVIRONMENT OF VIET NAM (MONRE)**

(Da Nang, 28 June 2018)

*Ladies and gentlemen,*

Over the past two days, we have been working hard on identifying critical global environmental challenges and have reached important agreements on solutions to the global environmental issues by adopting key documents in this Assembly.

We have shown our strong commitment to working together on global environmental issues through a series of meetings over the last six days.

I am inspired by the enthusiasm and commitment shown by all of us in joint efforts to address pressing problems, particularly those related to emerging issues, such as marine plastic waste, loss of biodiversity and climate change.

Let us work closely to turn the agreements reached in these meetings into actions, **for a more resilient, sustainable and life-affirming planet**, for current and future generations.

*Ladies and gentlemen,*
