Food Systems, Land Use and Restoration (FOLUR)

- Mitigate and enhance food value chains for multiple benefits
- Restoring deforestation from supply chains
- Expand restoration of degraded lands

SUSTAINABLE CITIES IMPACT PROGRAM

- Lead cost-effective urban projects in line with the SDG targets of sustainable development
- Enhance resilience to flood systems
- Clean air and pollution reduction interventions and technologies
- Promote alternative energy systems for more sustainable and green environmental benefits (SDG 7, 11, 13)

SFM Sustainable Forest Management

- Creating a better enabling environment for forest governance
- Supporting national and sub-national cross-sector landscape planning
- Clarifying land tenure and other relevant policies
- Supporting the private and other relevant partners
- Addressing the requirements of commercial and sustainable agriculture trends to reduce NBSAP and other PES
- Promoting financial mechanisms and incentives for sustainable forest utilization such as markets, NBSAP and other PES
