

International Partnership on Mitigation and MRV

GEF CBIT Consultation
April 11th 2016, WDC

Dr. Alexander Fisher

About the Partnership

Launched by South Africa, South Korea and Germany at the Petersberg Climate Dialogue in 2010, the Partnership encourages countries to step up mitigation ambition and carry out the transformation to a sustainable low-carbon society.

It facilitates the **exchange of good practice on mitigation-related experiences and MRV** between climate negotiators, policymakers and practitioners from more than **90 developing and developed countries** in order to share learning, build trust and inform the United Nations Climate negotiations.

About the Partnership

The Partnership supports the design, set-up and effective implementation of

- (Intended) Nationally Determined Contributions (INDCs/NDCs);
- Low-Emission Development Strategies (LEDS);
- Nationally Appropriate Mitigation Actions (NAMAs);
- Measuring, Reporting and Verification (MRV) systems.

Activities

Partnership Meetings and networking

- The Partnership organises meetings back-to-back with UN negotiations to ensure regular exchange between the partnering countries as well as coordinating national implementation and international negotiations. Meetings to date were held in:
 - Bonn/Germany in October 2015
 - Bonn/Germany in September 2015
 - Bonn/Germany in June 2015
 - Geneva/Switzerland February 2015

Next meeting: 22 May 2016 in Bonn

Annual Partnership Retreats

- The Partnership invites political decision makers and practitioners from developing and developed countries to exchange experiences and elaborate on their own approaches to selected mitigation and MRV related topics
- 5-7 days of lectures, exercises group work, and discussions
- Next Retreat: 31 August – 6 September in South Africa, topic: From MRV to an enhanced transparency framework in the context of NDC implementation the light of the Paris Agreement'

Inventory and Analysis of Mitigation Actions: Good Practice Analysis

- In order to encourage more exchanges between peers in the partner countries the Partnership carried out an analysis of good practices in cooperation with the UNDP LECB Programme
- Good Practice Analysis documents 40 examples of mitigation-related good practice worldwide that demonstrate how (I)NDCs, LEDS, NAMAs and MRV systems are being effectively designed and implemented across a range of national contexts

All examples can be found in an online database:

Knowlegde Management

Collection

- Preparing papers for easy access
- Developing tool and knowledge products
- Identifying good practices
- Gap analysis
- Country pages
- Space for partners to inform

Connection

- Website
- Newsletter
- Twitter
- Partnership Meetings
- Annual Partnership Retreats
- Technical workshops
- Peer-to-peer collaboration in networks

Capacity building

- Technical trainings and peer-to-peer exchange in regional groups (anglophone & lusophone African Regional Group, Cluster Francophone, Grupo Regional de América Latina y el Caribe, Asia-Pacific Regional Group)
- Online formats such as webinars and e-discussions
- Online course on NAMA development

Regional groups

Adding value into the current climate debate and finding solutions for future climate challenges, much needs to be done from the global, regional, national as well as subnational level. Consistent with international goals, values and objectives, **the International Partnership on Mitigation and MRV seeks to enhance cooperation and exchange with various partners through its regional groups.**

Regional Groups within the Partnership are:

1. African Regional Group
2. Asian Regional Group
3. Cluster Francophone
4. Grupo Regional de América Latina y El Caribe

African Regional Group

4 regional workshops on MRV, including BURs and GHG inventories, and INDCs; 5th regional workshop planned for 2-4 May 2016 in Ethiopia
Several webinars, i.a. on MRV and the linkages between NAMAs and INDCs

Federal Ministry for the
Environment, Nature Conservation
and Nuclear Safety

environmental affairs
Department
Environmental Affairs
REPUBLIC OF SOUTH AFRICA

Cluster Francophone

5 regional workshops on MRV, including MRV of NAMAs and GHG inventories, NAMAs and INDCs
Several webinars, i.a. on GHG inventories, data collection and processing, INDC development

Ministry of Environment
Republic of Korea

Asian Regional Group

2 regional workshop on MRV and GHG and non-GHG indicators; 3rd workshop planned for 2016

Several webinars, i.a. on MRV and the linkages between NAMAs and INDCs

LAC Regional Group

2 regional workshops on MRV of NAMAs and development and implementation of INDCs

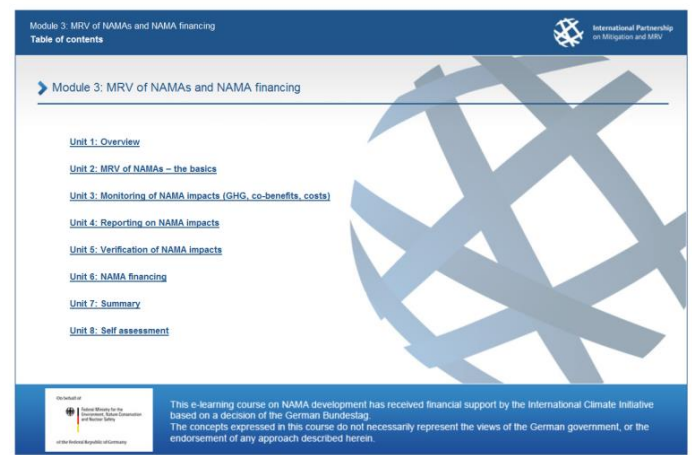

Several webinars, i.a. on MRV and the linkages between NAMAs and INDCs

NAMA E-Learning

- The International Partnership on Mitigation and MRV has developed an **online course on NAMA development** which can be used by participants around the world who wish to acquire basic knowledge on NAMAs.
- The course will allow you to go through a step by step process of choosing NAMA ideas and developing a design for your NAMA ideas.
- It is free of charge and has four modules
The online course is now **available at Global Campus 21**, GIZ’s international platform for learning and cooperation:
