1. This half-yearly report summarizes the progress made in programming of GEF-4 resources as of June 30, 2009 and compares cumulative GEF-4 approvals to programming targets for GEF-4. In addition, it details project approvals and endorsements as well as project cancellations during the six-month period from January 1 to June 30, 2009.¹

Cumulative GEF-4 Approvals versus Programming Targets as of June 30, 2009

2. Between the start of GEF-4 and June 30, 2009, GEF grants and associated Agency fees amounted to \$194.60 million, representing close to 80% of resources expected to be available in GEF-4. The distribution of the approved amounts by focal areas/corporate programs compared to the corresponding programming targets are shown in Table 1.² The amounts approved for multi-focal projects have been split and added to the contributing focal areas. Similarly, the amounts approved for the Small Grants Program (SGP) have been split. The SGP core funds are reported under the section of corporate programs and the commitments made by countries from their Resource Allocation Framework (RAF) allocations for biodiversity or climate change focal areas are reported under the relevant focal area.
