October 11, 2011

---

GEF Council Meeting  
November 8–10, 2011  
Washington D.C.

## **Progress Report on the Implementation of the System for a Transparent Allocation of Resources (STAR)**

## Table of Contents

<b>Introduction</b> .....	3
<b>Utilizations</b> .....	3
Table 1: Summary of STAR Utilizations in Focal Areas.....	3
Table 2: STAR Utilizations (April 22, 2011-September 15, 2011 in US\$).....	4
<b>Remainders of Countries' Allocations</b> .....	9
Table 3: GEF-5 Indicative Allocations, Utilizations and Remainders (\$ Million) .....	9
<b>Potential Utilizations</b> .....	13
Table 4: CEO Recommended PIFs / PFDs for Work Program in November 2011 (US\$).....	14

## Introduction

1. Since the introduction of a resource allocation system in 2005, the GEF Secretariat has reported to the GEF Council on its implementation at every Council meeting. The previous implementation progress report (GEF/C.40/Inf.06) on the System for Transparent Allocation of Resources (STAR) to allocate GEF-5 resources was submitted to the Council in May 2011.
2. The current report consists of the following three parts: (i) utilizations of the STAR resources covering the period April 22, 2011 to September 15, 2011, and cumulative utilizations for GEF-5 covering the period July 01, 2010 to September 15, 2011; (ii) remainders of the countries' allocations after the cumulative utilizations; and (iii) future potential utilizations under STAR that were recommended by the CEO for inclusion in the work program for approval by the Council at its November 2011 meeting.

## Utilizations

3. During April 22, 2011-September 15, 2011, the total utilization of the STAR allocations reached \$175.51 million. That amount included \$46.83 million in biodiversity, \$88.98 million in climate change, and \$39.70 million in land degradation. Table **below** shows the subtotals of focal areas and the total of the subtotals of the utilizations in the period of April 22 -September 15, 2011;
4. Table lists detailed information on individual countries' utilizations in this period.
5. Cumulatively for GEF-5, from July 1, 2010 to September 15, 2011, the GEF financed a total of \$ 260.0 million. This amount included \$ 75.84 million in biodiversity, \$ 131.82 million in climate change, and \$ 52.34 million in land degradation (Table ). Detailed information on individual countries' utilizations and remainders in this GEF-5 period is listed in Table .

**Table 1: Summary of STAR Utilizations in Focal Areas<sup>1</sup>**

Focal areas	Utilizations in different periods (US\$)	
	April 22, 2011 -September 15, 2011	July 1, 2010 -September 15, 2011
Biodiversity	46,831,274	75,838,209
Climate Change	88,977,756	131,816,756
Land Degradation	39,704,186	52,343,186
<b>Total</b>	<b>175,513,216</b>	<b>259,998,151</b>

<sup>1</sup> Note: All amounts are in US dollars and include agency fees.

## Remainders of Countries' Allocations

6. Table below combines the countries' cumulative utilizations in Table 1 and the figures in the GEF-5 STAR initial allocations that were shown in *GEF-5 Initial STAR Allocations (GEF/C.38/inf.8/Rev.1)*. It illustrates the original GEF 5 initial allocations, the utilizations of the countries, and the remainders of the countries' allocations by focal areas and by total amounts. The remainders are the calculation results of the allocations minus the utilizations. As indicated at the end of the table, the total remainders are \$2,465 million, including \$1,128 million for climate change, \$1,004 million for biodiversity, and \$333 million for land degradation as of September 15, 2011.

7. Three countries have applied GEF's "flexibility policy" in the STAR. The policy allows a country with a total STAR allocation amount less than US\$ 7 million to flexibly use its STAR funds in any focal areas. As of September 15, 2011, Mauritania, Tajikistan, and Togo used part of their climate change allocation amounts in biodiversity and land degradation focal areas. As such, some negative numbers are shown under the columns of BD and LD of Remainders in Table for these three countries.

**Table 3: GEF-5 Indicative Allocations, Utilizations and Remainders (As of September 15, 2011)**

*Note: All amounts are in million US dollars and include GEF agency fees.*

## Potential Utilizations

8. The GEF Secretariat has prepared a Work Program with CEO Recommended PIFs for Council approval in November 2011. Some project information and proposed amounts for GEF funding, agency fees, and total Work Program funds are indicated in Table below. While some of the projects below are actually multi-focal area projects, the funds for these projects are sub-categorized under the project headings for biodiversity, climate change, and land degradation – if some project titles appear in more than one category, this means that the project is a multi-focal area project with funds allocated to those project areas. The GEF Secretariat will present more detailed information on the utilization of these projects in the next STAR implementation report in the spring of 2012.

**Table 4: CEO Recommended PIFs / PFDs for Work Program in November 2011 (US\$)**

Country	Focal Area	Agency	Project Title	GEF Project Grant	Project Agency fees	Total Country Utilization
