SUMMARY

1. This report provides an update on the work of the GEF CSO Network in the period July 2014-June 2015.
2. The GEF CSO Network (formerly the GEF NGO Network) actively participated in a range of GEF related meetings including the GEF Council meetings, 9 Expanded Constituency meetings and 5 regional SGP meetings.
3. The Network provided significant input to GEF policy making with statements on many agenda items at the GEF councils as well as at GEF 6 replenishment meetings. In addition, the Network actively participated in several GEF working groups including WG on the Public Involvement Policy, Gender Action Plan and Knowledge Management.
4. Internally, the Network is working on improving its governance structure and function and has adopted a new governance structure which include having a Chair of the Network and a separate secretariat and a new Strategic Plan which lays out the vision and targets for the GEF CSO network in the GEF 6 and GEF 7 periods. The Network has been active in promoting GEF and the engagement of civil society through its website and electronic newsletters in several languages. Membership of the network has steadily been growing and stood at 474 at September 2015.
5. Good progress has been made on the some of the recommendations made in the report for 2013-2014 but more work is needed on others. A number of specific recommendations are made as follows:

Recommendation 1: ECW meetings in GEF 6 should continue to include a specific agenda item related to engagement of civil society. Funding should continue to be provided through the ECW mechanism for back-to-back preparatory/follow-up CSO meetings to be organized at the time of each ECW meeting.

Recommendation 2: The Network, GEF Secretariat and GEF council should continue to work together to review and enhance the public involvement policy and its implementation.

Recommendation 3: GEF should fully put in place the mechanisms to support the implementation of the GEF Principles and Guidelines on the Engagement of Indigenous Peoples. In addition, adequate financial resources need to be allocated to enable their effective implementation.

Recommendation 4: The GEF Secretariat and the GEF-CSO Network should work together to encourage contributions from donors to the Voluntary Fund

Recommendation 5: GEF Secretariat and GEF-CSO Network should continue to work together to enhance CSO engagement with the GEF at COPs of various multilateral environmental agreements (MEAs) as well as support the implementation of the SDGs.

Recommendation 6: Efforts to enhance the engagement of CSOs and GEF OFP at the country level should be enhanced – through the organisation of annual meetings between OFPs and CSOs and enhanced engagement of CSOs in GEF project and programme design and implementation.

INTRODUCTION

1. This report is submitted to the GEF Council for information in line with the Council decision in November 2010. It describes the overall activities of the GEF-CSO Network, with specific sections dedicated to the work carried out by its Central Focal Point, Regional Focal Points and Indigenous Peoples Focal Points.
2. The GEF-CSO Network is an independent Network of civil society organizations (CSOs) established in 1995 to facilitate civil society inputs to GEF processes. In December 2013, the name of the network was changed From GEF NGO Network to GEF CSO Network in recognition that the organization's objectives, members, and activities relate to a broad group of Civil society organizations (CSOs) rather than just Non-Governmental Organizations (NGOs). The GEF-CSO Network comprises nearly 500 member organizations with experience and expertise in GEFs areas of work from all regions around the world. It is governed by a global Coordination Committee composed of representatives of elected Regional Focal Point organizations (RFPs) from 16 geographic regions and three Indigenous Peoples Focal Points (IPFPs) from Asia, Africa and Latin America. The day-to-day global coordination of the Network is coordinated by a Central Focal Point (CFP) elected from among the members of the Coordination Committee members working in partnership with the RFPs and IPFPs. The Network has been recognized by the GEF Council and GEF Secretariat as a key entity in the work of the GEF.
3. The following report provides the progress made in the period July 2014-June 2015 by the GEF-CSO Network.

NETWORK STRUCTURE AND FUNCTION

4. The basic Network structure was established in the late 1990s and consolidated through development and adoption of a series of guidelines and rules and procedures the most recent of which was amended in June 2014 (click [here](#) to view the rules). The Regional Focal Points (RFPs) are elected for four year terms from among the members in 16 different geographical regions (see **Annex 1**). The regional focal points are responsible for stimulating interest in GEF among CSOs in their regions and facilitating engagement of CSOs in GEF programmes and activities. Indigenous Peoples Focal Points (IPFPs) are selected through consultation among members of key Indigenous Peoples networks in three regions – Asia, Africa and Latin America. They also serve four year terms. The RFPs and IPFPs elect from among their number one organization to serve as the Central Focal Point (CFP) to act as secretariat and coordinate the day to day global coordination of the operations of the Network. The RFPs/IPFPs undertake the coordination of activities in their respective regions. The current list of RFPs, IPFPs and CFP is in **Annex 2**. In response to the GEF5 reforms the Network is in the process of enhancing its presence at the country level through the designation of country contact points – especially in countries with significant numbers of members as well as high GEF fund allocation. All these Network functions are undertaken primarily on a voluntary basis by the organizations and individuals involved.

5. The current Rules and Procedures of the Network set out the main procedures for Network functioning include membership, elections, representation, decision making and fund management. The network has its own complaints procedure to address any concerns from member organizations. The Network adopted a new Strategic Plan on 2 June 2015 which lays out the vision and targets for the GEF CSO network in the GEF 6 and GEF 7 periods (between 2015 - 2022) (click [here](#) to view the Strategic Plan).

6. The Coordination Committee meets twice a year immediately before the GEF Council-CSO consultation meetings prior to the Council. The committee oversees the work of the Network, approves budgets, strategies and workplans for Network operations. It also explores strategies to enhance the effectiveness of the Network's work to enhance civil society input to GEF. The Committee has established four sub-committees to address Governance, membership and elections; outreach and communication; Strategy and planning; and linkage with GEF-related conventions. Task forces are established from time to time to address key issues. In the past year, task forces and working groups have been established to oversee regional elections and to develop inputs to the GEF focal area strategies respectively.

7. In June 2015, the Network adopted a new governance structure which include having a Chair of the Network and a separate secretariat. Formal changes to the rules to enable this change are to be adopted in October 2015 followed by the election of a Chair with the current CFP acting as interim Secretariat. The Chair would be elected from among the members of the Coordination Committee (i.e. RFPs/IPFPs) and will be assisted by the Chairs of the four Network sub-committees (who would be designated as Co-chairs/Vice chairs).

8. The network will establish a separate Secretariat, beginning January 2017. The role of the Secretariat would be to support the work of the Network both at the time of CC and GEF Council meetings as well as between meetings. The Secretariat will be appointed from among member organizations which are able to host or provide services as secretariat.

ORGANIZATION AND PARTICIPATION IN GEF RELATED MEETINGS

GEF Council – CSO Consultations

9. The GEF-CSO Network plays a key role in the organization of GEF Council–CSO Consultations immediately prior to the GEF Council meetings in Washington DC. These bring together representatives of member CSOs, GEF Council members, GEF Agencies, GEF-related Conventions and the GEF Secretariat. The meetings provide a forum for key issues of concern to civil society to be discussed with the GEF Council members, agency representatives and other stakeholders.

10. GEF Council-Civil Society consultations were organized by the Network prior to the 47th GEF Council meeting in October 2014 and the 48th GEF Council Meeting in June 2015. The meetings were attended by nearly 100 people from a broad range of stakeholders including council members, GEF Agencies, GEF Secretariat and CSOs. The GEF CEO participated in one hour dialogue sessions in the meetings providing an opportunity for CSOs to learn first-hand of key GEF initiatives and

challenges. The focus of the consultation in Oct 2014 was on three key issues: gender mainstreaming and public involvement in GEF projects; the work of the GEF-CSO Network; and CSO engagement in the GEF-6 while in June 2015 the discussion was on the strengthening of CSO engagement in the GEF and knowledge management in the GEF. Summary reports on the consultations can be found at: <http://www.gefngo.org/index.cfm?&menuid=272&parentid=49&lang=EN> and <http://www.gefngo.org/index.cfm?&menuid=285&parentid=0>

GEF Expanded Constituency Workshops

11. Between July 2014 and June 2015, the Network RFPs and members attended ECW meetings in Namibia, Nicaragua, Sri Lanka, Paraguay, Cabo Verde, Bahamas, Georgia and Rwanda. During the workshops, the RFPs played an important role in facilitating knowledge sharing among CSOs as well as organizing special dialogue sessions. These CSO meetings deepened members’ understanding of GEF work modalities and cooperation. A list of meetings attended by Network focal points in the period is given in **Annex 3**.

12. The RFPs also helped to facilitate 1-day CSO meeting held back-to-back with the ECW meetings and involved representatives of CSOs from each country attending the ECW. A total of 120 CSO representatives from 64 countries attended these meetings. These meetings were important for CSOs to share common achievements and challenges facing their engagement with GEF and to enable them to prepare a common position to share with the ECW meeting.

INPUT TO GEF POLICY MAKING

13. The Network presented a number of position papers, briefs and made associated statements in relation to GEF Council working papers at the respective GEF Council as listed below.

In addition, in between the council meetings the Network provided comments on the following GEF papers

- Draft Approach paper for GEF Independent evaluation office (IEO)'s Annual Performance Report 2014 (APR 2014) in January 2015.
- Joint GEF/UNDP evaluation of the Small Grants Programme (SGP) in January 2015.
- Development of the GEF Knowledge Management Approach Paper in April/May 2015.

INVOLVEMENT IN GEF WORKING GROUPS

14. The GEF-CSO Network contributed actively to the GEF policy/plan implementation process during the reporting period. The Network participated in three GEF Working Groups; i.e. the Public Involvement Policy, Gender Action Plan and Knowledge Management.

15. The GEF-CSO Network worked closely with GEF Sec on the process of the update of the GEF Public Involvement Policy as well as the implementation of the Guidelines. Three representatives from the GEF-CSO Network participated in the working group to review the policy. The first meeting of the working group took place on 1 June 2015 after the GEF Council-CSO consultation meeting.

REVIEW OF THE GEF-CSO NETWORK

16. The GEF (IEO), upon the request of the GEF Council, has launched an evaluation of the GEF CSO Network. The evaluation will review the Network's performance, relevance, effectiveness and results in promoting knowledge dissemination and CSO involvement in GEF policies and programs. The evaluation started in May 2015 and the Network has worked closely with the IEO in developing the Approach Paper, facilitating inputs during subsequent ECW Meetings. The evaluation is expected to be complete in June 2016.

COLLABORATION WITH SMALL GRANTS PROGRAMME (SGP)

17. The Network contributed actively to the work of the GEF Small Grants Programme. It is represented in the GEF SGP Steering Committee which was formally re-established in June 2015. The Network worked closely with the SGP Global Office to coordinate the Network's participation in the SGP regional workshops in 2015. Selected RFPs attended the 5 regional SGP meetings that were held in Thailand, Dominican Republic, Zambia, Jordan and Morocco and shared the Network's experience and opportunities for collaboration.

18. The Network jointly developed a portable knowledge base material called "CommunitiesConnect" with SGP in May 2014 which is currently being updated/upgraded. The Network is also working with SGP in several regions in jointly organizing the CSO-Government Policy Dialogue.

OUTREACH AND COMMUNICATION

19. The Network continued to maintain and develop the Network website www.gefcso.org as an interactive communication tool between the Network and the members as well as others interested in CSO activities related to GEF. Electronic mailing groups were extensively used at regional and global level to disseminate information to members.

20. The use of the GEF-CSO Network website has significantly increased over this period, it has attracted a total of 155,277 visitors (up till May 2015). The number of visitors per month has steadily increased over the past year with the monthly average now topping 2000 visitors.

21. To promote further outreach, during the reporting period, the Network developed and disseminated 3 issues of its quarterly e-Newsletter (Dec 2014, March 2015 and June 2015). In addition to the Network members, the newsletters were disseminated to the GEF Council Members, GEF Agencies, GEF Focal Points and others.

MEMBERSHIP DEVELOPMENT

22. The membership of the Network is managed by the CFP and a Membership Officer was appointed on a part-time basis in the CFP office.

23. As of Oct 2015, there were 474 members in the Network. The number is lower compared to the 564 at the last reporting due to the membership renewal process which was undertaken in 2013 to facilitate updating of membership status and profiles. About 122 (22%) of existing members were dropped due to several reasons including lost communication (outdated contact details), ceased operations and others. Membership promotion was undertaken at global, regional and local levels through the RFP, international meetings, for example, during UNFCCC meeting, and through website. The current list of member organizations is given in **Annex 4**.

WORK OF THE NETWORK FOCAL POINTS

Regional Focal Points

24. At the regional level, activities were undertaken by the RFPs in their respective region to enhance the role of civil society in GEF activities and in promoting the Network. The key activities undertaken by RFPs in their regions were :

- (a) Dissemination of information about events, meetings, updates and comment pertaining to environment and GEF activities to CSOs in their respective regions (including in respective regional languages).
- (b) Circulation of reports on achievements from GEF Council CSO consultations and the GEF Council
- (c) Soliciting and collating of inputs and comments from the constituency on Network position papers, GEF papers, etc.
- (d) Promotion of the Network through emails, website and meetings to encourage more local CSOs to be a part of the Network.
- (e) Sharing and disseminating information on funding opportunities including the SGP to CSOs.
- (f) Recommendation of participants from their region for participation in the GEF meetings, e.g. Council, Expanded Constituency Workshops (ECW) and other meetings.
- (g) Liaising with GEF Operational Focal points in selected countries in their regions.
- (h) Participation in GEF Council Consultation meetings, GEF Council meetings, GEF Assembly and providing inputs to related position papers.
- (i) Participating in meetings of the Coordination Committee and relevant sub committees.
- (j) Participation in and coordination of CSO activities and presentation on CSO issues at ECW meetings, including organisation of CSO meetings at regional level back to back with ECW meetings (including meetings in Namibia, Nicaragua, Sri Lanka, Paraguay, Cabo Verde, Bahamas, Georgia and Rwanda) and SGP Regional Workshops.

INDIGENOUS PEOPLES FOCAL POINTS

25. During this period, the engagement between the Network and IP organizations and networks has been enhanced. There was also some engagement of IP organizations in country dialogues but the envisaged involvement of IP organizations in ECW was limited due to various constraints, related to the selection procedure and limitation of participation to one CSO representative per country.

26. The Network is represented in the GEF Indigenous Peoples Advisory Group by Legborsi Saro Pyagbara, the Indigenous Peoples Focal Point for Africa.

27. The IPFPs were active in strengthening the engagement with IPs and the Networks. Their activities included:

- (a) Dissemination of information about events, meetings, updates and comments pertaining to environment and GEF activities to Indigenous peoples' organizations and Networks in their respective regions.
- (b) Circulation of reports on achievements from GEF Council CSO consultations and the GEF Council to Indigenous People's organizations and Networks
- (c) Sharing and dissemination of information on funding opportunities including the SGP to Indigenous Peoples organizations.
- (d) Recommendation of participants from indigenous peoples' organizations for participation in the GEF meetings, e.g. Council, ECW and other meetings.
- (e) Participation in GEF Council-CSO Consultation meetings and GEF Council meetings, and providing inputs to position papers on CSO engagement in GEF.
- (f) Participating in meetings of the Coordination Committee and relevant sub committees.
- (g) Participation in selected convention related meetings including UNFCCC COP 20 in Peru.

CENTRAL FOCAL POINT

28. The Central Focal Point was actively involved in coordinating of the review of Council papers, preparation of Network position papers, organizing preparatory, Council-CSO meetings, CSO Forum and other GEF-related meetings and overall administration of the Network. The key activities undertaken were :

- (a) Organizing the Coordination Committee meeting, Preparatory meeting and GEF Council – CSO Consultation meeting before the 46th Council meeting in October 2014 and Coordination Committee cum Preparatory Meeting before the 47th Council meetings in June 2015.
- (b) Represented the GEF-CSO Network at the GEF Working Group on Public Involvement Policy and GEF SGP Steering Committee.
- (c) Outreach and communication with members to share information on GEF-CSO Network and GEF activities including e-group and website operation and maintenance.
- (d) Coordinating membership administration and promotion.
- (e) Coordinating preparation of Network policy and position papers for GEF Council sessions.
- (f) Coordinating with IEO on the review of the GEF CSO Network, including obtaining feedback and giving input on the Approach Paper; and providing input to the design of the survey.

FINANCE AND ADMINISTRATION

29. Although the Network primarily works on a voluntary basis – it needs resources to cover the cost of specific activities and services including administration and governance, outreach, advocacy engagement, and participation at GEF related meetings and workshops,.

30. For the past four years the Network received a grant of \$50,000 from the GEFSEC to support outreach and communication activities including maintaining the network web site, production of the newsletter, development and translation of materials for dissemination in local languages and organization of activities at country and sub-regional level. However for the reporting period no such funding support was received from the Secretariat. This lack of support has a negative impact on network activities especially at the regional and country levels.

31. During the reporting period, some remaining funds from an earlier grant from the NGO Voluntary Fund (established to support the work of the Network) were used to cover the costs for printing and distribution of the review of the Public Involvement Policy. The balance of the grant was returned to the GEF Secretariat in December 2014 and a new application was made to support network outreach and activity costs. However no further grant was received during the reporting period. Following the finalization of its strategic plan in June 2015 – the Network has initiated a process to identify other sources of funds to support its work. In line with its procedures for financial management, Network accounts are audited on a calendar year basis and the audit reports posted on the Network website. The audit report for 2014 is available [here](#).

32. During the year, the GEF Secretariat supported the participation of 31 places and 36 places for CSOs in the October 2014 and June 2015 Council-CSO Consultation meetings respectively. This support consisted of travel, accommodation and meal expenses for the CSO participants. Funding was also provided to support the participation of members of the Network as well as RFPs in the GEF ECW meetings. Co-financing was also provided by Network members for a number of activities through significant time input as well as costs for a number of participants in various meetings.

KEY ISSUES/CONCERNS AND RECOMMENDATIONS

Progress in addressing issues raised in the 2013-2014 Report

33. Nine issues requiring action by the Council or Secretariat were highlighted in the Network's Report to Council for 2013-2014. They are as follows:

- (a) Enhancing the procedures for the selection and travel arrangements for CSOs supported to attend GEF Council-CSO consultations
- (b) Enhancing the role of the Network in selecting participants for the ECW meetings
- (c) Contributions to the GEF NGO Voluntary Fund
- (d) Adjustment of the selection procedure for CSO Participants in the GEF Assembly
- (e) Review and update of the GEF Public Involvement Policy

- (f) Establishment of the mechanisms to enhance the engagement of Indigenous Peoples and the GEF
- (g) Enhancing support for CSO engagement with the GEF at COPs of various multilateral environmental agreements (MEAs)
- (h) Building strong mechanisms for Network member engagement at national, regional and global level such as through incorporation of CSO reps in GEF monitoring and evaluation teams
- (i) Exploring ways to strengthen the relationship between GEF, agencies, implementing partners and civil society

34. Progress has been generally positive during the year with good achievements in a number of areas, as follows:

Full or partial progress

- (a) Enhancing the procedures for the selection and travel arrangements for CSOs supported to attend GEF Council-CSO consultations

Improvements have been maintained on selection and travel arrangements for GEF Council – CSO consultations – however there still remains a problem for participants from some countries to obtain visas on time and in travel arrangements. This was addressed by bringing forward the deadline for application to enable selection to be completed two months before the Council meeting. The GEFSEC has also continued to show flexibility on allowing additional or replacement participants when budgets permit.

- (b) Enhancing the role of the Network in selecting participants for the ECW meetings.

Improvements have been maintained in 2014-2015 in the coordination between the GEF Secretariat and the Network in identification and selection of participants to attend the ECW meetings. This has enabled better preparations to have been made by the Network prior to the meetings and has enabled back-to-back meetings of CSOs to be organized at most ECWs in 2014/2015 with an option to report on CSO deliberations in the ECW meeting. The addition of back-to-back CSO meetings and the inclusion of a CSO related agenda item in the ECW meeting were extremely valuable activities and it is positive that these have been continued in GEF 6. The cost of the CSO meeting is low as the only cost is for one extra night's accommodation/subsistence and the cost of a meeting room.

Recommendation 1: ECW meetings in GEF 6 should continue to include a specific agenda item related to engagement of civil society. Funding should continue to be provided through the ECW mechanism for back-to-back preparatory/follow-up CSO meetings to be organized at the time of each ECW meeting.

- (c) Adjustment of Selection procedure for CSO Participants in the GEF Assembly

The selection procedure worked well for the GEF assembly in May 2014 and hopefully a similar procedure will be used for the next assembly.

(d) Review and update the GEF Public Involvement Policy

The network undertook a review of the Public involvement policy in 2013-2014 and recommendations were highlighted in the annual report for that year. The Network recommended that GEF Council should support action to update the Public Involvement Policy and develop guidelines to enhance implementation. It also recommended that the Council should also support the mainstreaming of civil society engagement in other policies and procedures of GEF and ensure adequate resources are made available to support civil society engagement. Subsequently the Network has collaborated the Secretariat in August-September 2014 in contributing to the draft guidelines for implementing the policy. The Guidelines were reviewed by the network in October 2014 and it was proposed that a working group be established with the involvement of the network to oversee further work on the policy. The Working group had its first meeting in June 2015 and aims to present its final recommendations in October 2016. This progress is positive but the network hopes that it will result in the significant update of the current policy which was recommended by the Network's review.

Recommendation 2: The Network, GEF Secretariat and GEF council should continue to work together to review and enhance the public involvement policy and its implementation.

(e) Establishment of the Mechanisms to enhance engagement of Indigenous peoples and GEF

In 2014-2015 there has been some progress on the development of the various mechanisms related to the GEF Principles and Guidelines on the Engagement of Indigenous Peoples. The Indigenous Peoples Advisory Group (IPAG) continued its work and meetings were held in XXX and YYY. The main outcomes of the meetings included ZZZ

Recommendation 3: GEF should fully put in place the mechanisms to support the implementation of the GEF Principles and Guidelines on the Engagement of Indigenous Peoples In addition, adequate financial resources need to be allocated to enable their effective implementation.

35. Limited progress has been made in other areas as below:

Little or No progress

(a) Contributions to the GEF NGO Voluntary Fund

The GEF NGO Voluntary Fund was established in January 2012. Initial funds comprised the remaining funds from earlier donor grants in the 1990s as well as additional funds from the GEF secretariat. The balance of an earlier grant was used in 2014-2015 to print the review of the GEF Public Involvement policy. Although there was a remaining balance of about 50,000 in the fund – no new grant was made to the network in 2014-2015. The fund was established to support the work of the network and with the adoption of the Network strategic plan 2015-2022 – there are a range of activities that need support and additional contributions are required – especially from donor

countries. No progress has been made in 2014-2015 in securing additional contributions to the fund.

Recommendation 4: The GEF Secretariat and the GEF-CSO Network should work together to encourage contributions from donors to the Voluntary Fund

- (b) Enhancing support for CSO engagement with the GEF at COPs of various multilateral environmental agreements (MEAs) and the Sustainable Development Goals (SDGs) framework

Little progress was made in 2014-2015 on enhancing the support of the engagement of CSOs with the GEF at the COPs of various multilateral environmental Agreements. It was not possible to organize a dialogue between the GEF CEO and CSOs attending the climate change COP in Peru or the CBD COP in Korea. Some progress was made by the network in working with the UNCCD to strengthen the level of CSO engagement in convention activities. The overlap of GEF Council and Convention meetings in 2015 has reduced opportunities for engagement. With regards to the new SDGs, the Network is tracking the progress of the SDGs to see how the Network can link its Strategic Plan and contribute to the goals. The Network will explore with GEF Sec to see how GEF engagement can enhance achievements of SDGs; for instance, jointly convening a workshop to discuss how SDGs can be integrated to GEF's future work.

Recommendation 5: GEF Secretariat and GEF-CSO Network should continue to work together to enhance CSO engagement with the GEF at COPs of various multilateral environmental agreements (MEAs) as well as support the implementation of the SDGs.

- (c) Building strong mechanisms for Network member engagement at national, regional and global such as through incorporation of CSO reps in GEF monitoring and evaluation teams;

Limited progress has been made in relation to this issue but the matter has been looked at in the context of the Public Involvement Policy. Engagement in GEF M&E activities could be addressed in conjunction with the GEF Independent Evaluation office. It is planned that the network will provide input to the revision of the GEF M&E policy in 2015-2016.

- (d) Explore ways of strengthening the relationship between GEF, agencies, implementing partners and civil society

Little specific progress was made in relation to this issue. It is proposed that this be reviewed further with the GEF secretariat.

Recommendation 6: Efforts to enhance the engagement of CSOs and GEF OFP at the country level should be enhanced – through the organisation of annual meetings between OFPs and CSOs and enhanced engagement of CSOs in GEF project and programme design and implementation.
