'Youth, women, and elders are the ones who don't give up'

NEWS / November 23, 2022

Photo courtesy of Mirna Inés Fernández Pradel

Mirna Inés Fernández Pradel is a member of the Global Youth Biodiversity Network (GYBN), an international network of young people focused on preventing biodiversity loss and protecting nature. In an interview, she shared lessons from her work to elevate youth voices internationally and expressed her hopes for the UN Convention on Biological Diversity (CBD) COP15 summit in Montreal.

Why is youth engagement around biodiversity important to you?

I believe that the full and effective engagement of young people in decision-making processes about biodiversity is key to delivering policies that protect the diversity of species, ecosystems, and genetic resources that we have, and ensuring the well-being of the communities who depend on these.

Youth all over the world are not only extremely worried about the socio-ecological crisis that we are facing but taking bold actions to halt it. They are taking to the streets and raising their voices to demand social-ecological justice. They also lead projects for biodiversity conservation, restoration, sustainable management, and awareness. All of this happens most of the time with very little or zero funding or institutional support.

Reviving wetlands in the Western Indian Ocean: efforts and progress

FEATURE STORY / February 8, 2023

Wetlands in the Western Indian Ocean region are not just a pretty sight, they are vital ecosystems that support a diverse array of life. They include salt marshes, seagrass beds, and mangrove forests. These unique habitats are homes, breeding and feeding grounds for species such as fish, turtles, sea cucumbers, molluscs, corals, mangroves, and seagrasses. Additionally, wetlands in the Western Indian Ocean region also have significant economic and cultural value. However, these wetlands are under threat from human activities such as pollution through the release of untreated wastewater from cities and settlements, upstream activities like agriculture, deforestation, and natural disasters such as cyclones.

But there's hope! Efforts to safeguard and maintain these invaluable wetlands are in full swing. From Chake Chake, Pemba, where drainage capacity is being boosted, to Seychelles, where locals are being educated on wetland

Gabon, Jamaica, and Sri Lanka unite to fight hazardous skin lightening products

NEWS / February 14, 2023

An array of skin lightening products. Photo credit: Jasmine Halki/Flickr

The governments of Gabon, Jamaica, and Sri Lanka have joined forces to fight back against damaging beauty practices, launching a joint \$14-million project to eliminate the use of mercury in skin lightening products.

Using cosmetics to inhibit the body's production of melanin, leading the skin to appear lighter, is a centuries-old practice in many parts of the world that continues to take a toxic toll today.

Both men and women use skin lightening products, not only to lighten their skin but to fade freckles, blemishes, age spots, and treat acne. However, consumers are often unaware that many of these products contain harmful chemicals including mercury, a toxic substance which poses risks to human health and contaminates the

Skin lightening products can cause skin rashes and discoloration; scarring; nervous, digestive, and immune system damage, as well as anxiety and depression. The Minamata Convention on Mercury has set a limit of 1mg/1kg (1ppm) for mercury in skin lightening products. However, a 2018 Zero Mercury Working Group and Biodiversity

Sampling the fruits of success and innovation in the Maldives

Sometimes the fruits of success taste particularly sweet, as GEF CEO Carlos Manuel Rodríguez discovered on a visit to the Maldivian island of Meedhoo, where he witnessed an effort led by local women to revive a dying culinary art. "This GEF Small Grants Programme project is not only investing in preserving the rich tradition of Bondi-making in the Maldives but, more importantly, in its future generations," said Rodríguez, who later visited two waste-related projects elsewhere in the Addu Atoll. Read more >>

How to protect ocean life in 2,885 days (or less)

Countries have committed to protecting at least 30 percent of the world's land and sea habitats by 2030. But how? At an event co-hosted by the GEF, World Resources Institute, and High Ambition Coalition for Nature and People during IMPAC5 in Vancouver, people leading, planning, and funding marine protected areas around the world shared ideas about how to make this happen with less than seven years on the clock. Read more

Countries unite to fight hazardous skin lightening products

The governments of Gabon, Jamaica, and Sri Lanka have joined forces to fight back against damaging beauty practices, launching a joint \$14-million project to eliminate the use of mercury in skin lightening products. The project is led by UNEP, with funding from the GEF, and executed by the World Health Organization and the Biodiversity Research Institute. Read more >>

Visual Identity www.thegef.org/gef-logo

Color | Primary

The GEF Primary Color has been selected to present the GEF as a leader in global environmental issures.

Never use the GEF Signature in any other color than the versions provided in these guidelines.

Primary Brand Color

CMYK: 83 / 16 / 83 / 54 RGB: 39 / 94 / 55 Hex: #006227

Color | Focal Area

There are five Focal Areas.

- International Waters
- Climate Change
- Biodiversity
- Land Degradation
- Chemicals & Waste

Each Focal Area has a designated color.

This color should be used when developing a product for that Focal Area, such as a brochure, poster, or other material.

The color can be used throughout the communication, for backgrounds, sidebars, headlines, subheads, charts, and graphs.

Use the Focal Area designated color for the accent bar on the cover of the publication.

International Waters

CMYK: 91 / 53 / 0 / 0 RGB: 42 / 110 / 187 Hex: #026CB6 Climate Change

Overview: GEF's Climate Adaptation Support

Least Developed Countries Fund (LDCF)

Dedicated adaptation fund for LDCs to address their special adaptation needs established under the UNFCCC.

Special Climate Change Fund (SCCF)

Supports adaptation and technology transfer in all developing country parties to the UNFCCC

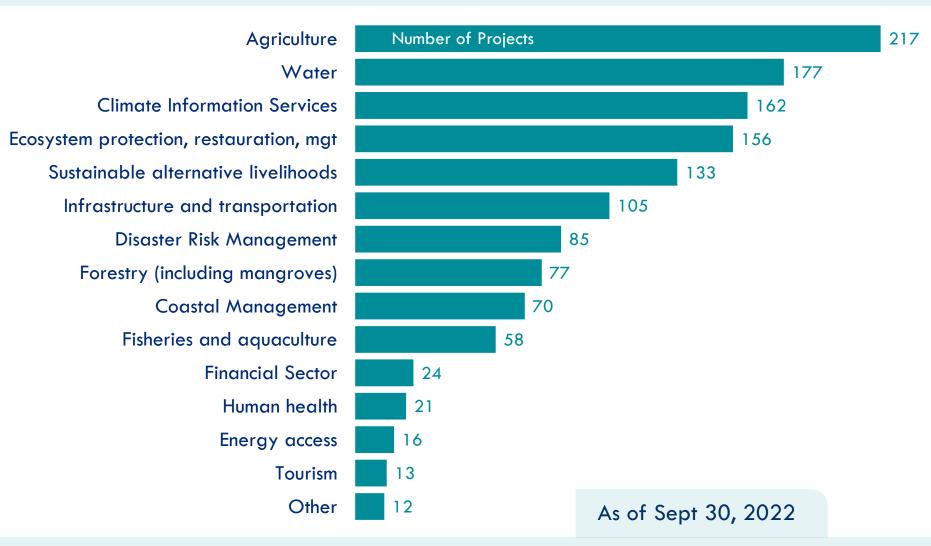

- Established in 2001 under the UNFCCC to serve the Paris Agreement.
- Voluntary Contributions from donors.
- Over \$ 2.2 billion in grants for close to 480 projects in 98 countries (Dec'22).
- National, Regional and Global projects.
- Multi-trust fund projects combining LDCF, SCCF and GEF Trust Fund.

Least Developed Countries Fund

LDCF SECTORAL DISTRIBUTION

Since inception

Least Developed Countries Fund

LDCF EXPECTED RESULTS

As of Sept 30, 2022

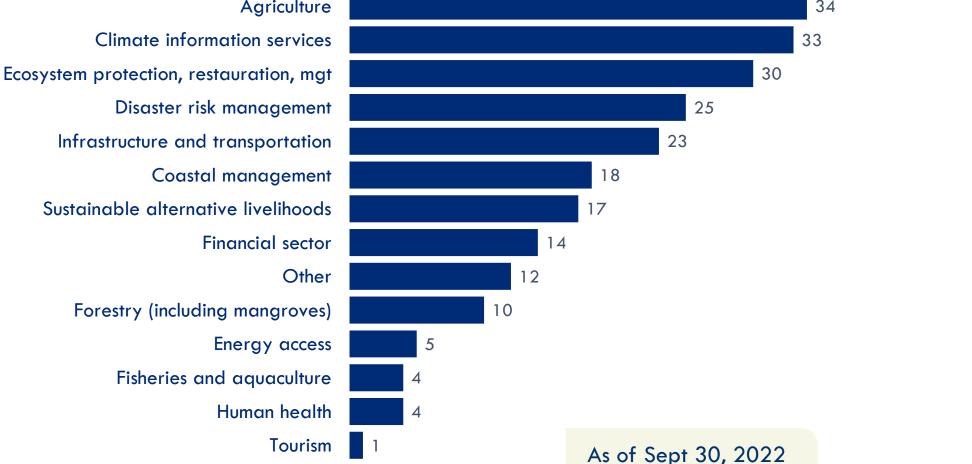

60.08 million	direct beneficiaries GEF-6 & GEF-7: 45% female		
9.6 million	hectares of land better managed to withstand the effects of climate change		
1.91 million	people trained to identify, prioritize, implement, monitor and/or evaluate adaptation strategies and measures GEF-6 & GEF-7: 48% female		
3,161	policies, plans, and processes developed or strengthened to identify, prioritize, and integrate adaptation strategies and measures		
918	risk and vulnerability assessments, and other relevant scientific and technical assessments carried out and updated		

Cumulative funding approvals: \$1,751.2M

Special Climate Change Fund

SCCF SECTOR DISTRIBUTION

SCCF EXPECTED RESULTS

As of Sept 30, 2022

8.91 million	direct beneficiaries GEF-6 & GEF-7:	47% female	
5.16 million	hectares of land better managed to withstand the effects of climate change		
218,765	people trained to identify, prioritize, implementations and measures GEF-6 & GEF-7:		evaluate adaptation
486	policies, plans, and processes developed or strengthened to identify, prioritize, and integrate adaptation strategies and measures		
191	risk and vulnerability assessments, and oth assessments carried out and updated	ner relevant scientific	and technical

Cumulative funding approvals: \$365.6M

GEF-8: LDCF and SCCF Climate Change Adaptation Programming Strategy

To facilitate transformational adaptation in developing countries, towards achieving the Paris Agreement's global goal on adaptation

Build on strengths and value to address gaps, be innovative, inclusive, and agile

Positioned to generate and track multiple benefits and mobilize finance at scale, with GEF Trust Fund, GCF, and others

Major upgrading opportunity to catalyze transformational adaptation and contribute to Paris Agreement Global Goal on Adaptation

Informed by science and priorities, contributing to action and ambition in response to IPCC call for urgency

LDCF/SCCF Priority themes for 2022-2026

Agriculture, food security and health

Heightened focus on community wellbeing

Water

Continued support to capture, store, conserve and enable easier and more reliable access to water

Early warning and climate information systems

Expand access and strive for greater user uptake

Nature-based solutions

High potential to deliver adaptation

4

LDCF priority areas for 2022-2026

PRIORITY AREA 1

Scaling up finance

- Policy coherence
- Institutional capacity
- Innovative financing mechanisms
- Tools and metrics

PRIORITY AREA 2

Strengthening innovation and private sector engagement

- Technology transfer and innovation
- MSME incubation and acceleration
- Inclusive microfinance
- Risk sharing to catalyze private investment
- Enabling private sector action

PRIORITY AREA 3

Fostering partnership for inclusion & whole-of-society approach

- Institutional strengthening and capacity building at all levels
- Partnerships with local organizations and systems to address social equity
- Innovative financing opportunities to support whole-of society approach
- Thought leadership through global partnerships and fostering enabling environment

LDCF Financing Scenarios

FLOOR

SCENARIO A Total: \$1 billion

Total: \$1.3 billion

\$9M

Special Climate Change Fund (SCCF)

SCCF priority areas for 2022-2026

PRIORITY AREA 1

Supporting the adaptation needs of SIDS

- Projects in the priority themes
- Joint programming with GCF
- Complementarity to GEF Trust Fund Impact Programs (Blue and Green Islands and Clean and Health Oceans Integrated Programs)
- Regional/global learning and cooperation, strengthening regional organizations

PS 22737 BN CIKE V

PRIORITY AREA 2

Strengthening innovation, technology transfer and private sector engagement

- Technology transfer, deployment and innovation
- Climate resilient financial product innovation
- Finance and insurance sector innovation
- Blending concessional with commercial finance to catalyze private investment
- Regional and global projects for learning and collaborative action

SCCF Financing Scenario (2022-2026)

SCENARIO A: \$200M

SCENARIO B: \$400M

Window A Adaptation support for SIDS

FLOOR

SCENARIO A

(\$3 million

X 30 SIDS)

SCENARIO B

(\$6.5 million X 30 SIDS)

\$195M

Windows A and B (shared expenses)

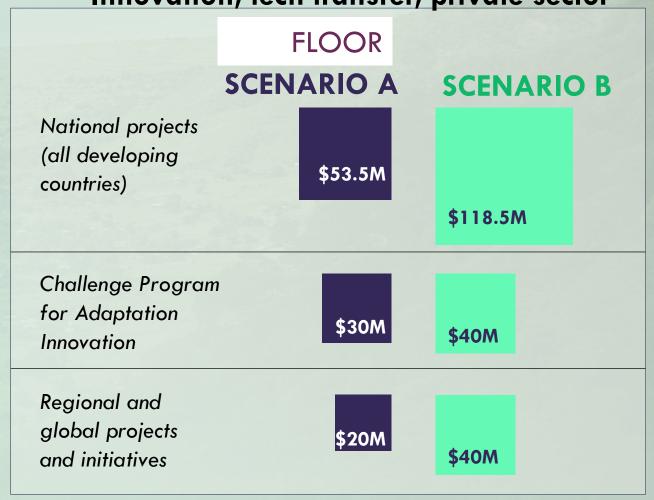

Dedicated programs

■ \$2M

Administrative expenses

\$4.5M

Window B Innovation, tech transfer, private sector

Operational improvements

OLD

- Rolling approval of projects
- First-come, first-served
- No prioritization
- Limited multi-trust fund programming
- Pipeline with long wait (2+ years)

GEF-7

- Work Programs
- Strategic prioritization
- Multi-trust fund programming enabled
- No more pipeline
- Significantly reduced wait time
- More balanced agency share
- \$10 million initial cap by LDC
- 10% for global/regional initiatives from LDCF

GEF-8

- GEF-7 improvements
- Rio Markers for Climate Change,
 Biodiversity and Desertification
- Country resource cap modality for LDCF (\$20 million) and for SCCF
- Major initiatives and regional/global efforts from agreed 10% cap for LDCF
- Further synergy with GEF TF
- Aspirational MDB targets and ceiling to address agency concentration

Dedicated programs

Communications and Visibility Enhancement

4-year plan with a dedicated communication strategy & financial/human resources

\$2 million from LDCF \$0.5 million for SCCF

Outreach and Capacity Support for LDC and SIDS Planning and Programming

Enhanced support to LDCs/SIDS on project upstream workshops, investment planning, etc.

\$4 million from LDCF \$1 million from SCCF

Organizational Learning and Coordination

Dedicated program on learning and coordination at the fund and portfolio levels.

\$2 million from LDCF \$0.5 million from SCCF

Collaboration with other funds

PROGRAMMING STRATEGY

 Close alignment with projects and programs of the GCF, Adaptation Fund, GEF Trust Fund and LDCF to mobilize finance at scale

AGREEMENT AND ACTIVITIES

- LDCF & SCCF develop major initiatives and supports joint national investment planning with GCF
- LDCF & SCCF catalyze innovation and private sector action to enable broader investment by other funds

CLIMATE FUNDS COLLABORATION PLATFORM

- A foundation for exchanging ideas and cross-learning on results, indicators and methodologies.
- Adaptation Fund, CIF, GCF, NAMA Facility, GEF, LDCF, and SCCF engaged

Adaptation Fund at a Glance

Mandate to fund concrete adaptation projects with tangible results on the ground, in most climate-vulnerable developing countries & communities

Pioneer & leader on innovative 'Direct Access' & 'Enhanced Direct Access' modalities

(34 National Implementing Entities out of 57 accredited IEs)

As urgency of climate change has risen, it has grown rapidly to almost \$1B funding today

Tangible results

IMPACT 1:

Reduction in vulnerability of communities and increased adaptive capacity of communities to respond to the impacts of climate change

10.65 million

DIRECT BENEFICIARIES

21.17 million

INDIRECT BENEFICIARIES

Number of direct beneficiaries is a conservative estimate, as it is not consistently reported (i.e. some projects report as no. of households)

((1)) ((1)) 516 L

EARLY WARNING SYSTEMS

Includes projects targeting several small scale EWS at the local level as well as those targeting one large regional system

IMPACT 2:

Strengthened policies that integrate climate resilience strategies into local and national plans

99

POLICIES INTRODUCED
OR ADJUSTED TO ADDRESS
CLIMATE CHANGE RISKS

Includes any policy whether at the local, regional or national level

IMPACT 3:

Increased ecosystem resilience in response to climate change induced stresses

575,699 had the of Natural Habitats created, protected or Rehabilitated restored

162,275 M M OF COASTLINE PROTECTED

Thematic areas

 Disaster Risk Reduction

 Forests and Land Use

Advancement of gender equality

Nature-based solutions

Rural development

 Enhancement of cultural heritage

Coastal management

Food Security

Focus on communities

Agriculture

Water resources
 Management

Social innovation

Urban adaptation

Inclusion of youth

 Innovative adaptation financing

ACTION

Promote locally based or locally led adaptation

Enhance access to climate finance and long-term institutional capacity

Empower and benefit the most vulnerable people and communities as agents of change

Advance gender equality

Enable the scaling and replication of results

LEARNING & SHARING Strengthen complementarity, coherence and synergies with other adaptation funders and actors

Medium Term Strategy 2023 to 2027

- 3 Strategic **Pillars**
- 6 Crosscutting **Themes**

Theory of Change of the Medium-Term Strategy (2023 – 2027)

People, livelihoods and ecosystems are adequately protected from the adverse impacts of climate change with their adaptive capacity enhanced, resilience strengthened, and vulnerability reduced in the context of climateresilient and sustainable development.

VISION

Developing country Parties are successfully enhancing adaptive capacity, strengthening resilience and reducing vulnerability to climate change through inclusive and transparent processes consistent with their adaptation needs and priorities under the Paris Agreement.

MISSION

The Adaptation Fund serves the Paris Agreement by accelerating effective adaptation action and efficient access to finance, including through direct access, to respond to the urgent needs and priorities of developing countries.

The Fund does so by supporting country-driven adaptation projects and programmes, innovation, and learning with concrete results at the local level that can be scaled up.

OUTCOMES: STRATEGIC PILLARS

Linkages and synergies between support for adaptation action, innovation and learning and sharing are enhanced

CROSSCUTTING THEMES

All of the Fund's activities and processes are designed to:

Promote locally based or locally led adaptation

Enhance access to climate finance and long-term institutional capacity

Empower and benefit the most vulnerable people and communities as agents of change

Advance gender equality

Enable the scaling and replication of results

Strengthen complementarity, coherence and synergies with other adaptation funders and actors

ACTION

Developing countries are supported in undertaking and accelerating high-quality, local-level and scalable adaptation projects and programmes that are aligned with their national adaptation strategies and processes

EXPECTED RESULTS

- 1. Vulnerability reduced, resilience strengthened, and adaptive capacity enhanced
- 2. Access to finance and institutional capacities enhanced
- 3. Evidence for effective action generated and results scaled up

INNOVATION

Modalities for funding the development and diffusion of innovative adaptation practices, tools and technologies are expanded and risk-taking is encouraged

EXPECTED RESULTS

- 1.New innovations and risk-taking encouraged and accelerated
- 2.Successful innovations replicated and scaled up
- 3.Access and capacities enhanced for designing and implementing innovation
- 4.Evidence base generated

LEARNING & SHARING

Knowledge and evidence on effective and innovative adaptation action and finance, including local and indigenous knowledge, is generated and disseminated with various stakeholders for application

EXPECTED RESULTS

- 1. Knowledge generation and dissemination of learning on effective, innovative and local adaptation increased and expanded
- 2. Capacity to capture and disseminate learning strengthened
- 3. Knowledge partnerships expanded and outreach increased

AF Funding Opportunities under Strategic Pillars

ACTION	INNOVATION	LEARNING & SHARING
Single country projects (<\$10M) within cap of \$20M per country NIEs, RIEs, MIEs & Project Formulation Grants: (<\$50,000) for NIE only	Small grants (<us\$250 (nies)<="" adaptation="" change="" climate="" foster="" in="" innovation="" k)="" practices="" td="" to=""><td>Learning grants (<us\$150 (nies)<="" and="" best="" k)="" learned="" lessons="" practices="" share="" td="" to=""></us\$150></td></us\$250>	Learning grants (<us\$150 (nies)<="" and="" best="" k)="" learned="" lessons="" practices="" share="" td="" to=""></us\$150>
Regional projects (multi-country): <up \$14m="" &="" (ries,="" formulation="" grants<="" mies)="" project="" td="" to=""><td>Small grants (<\$ 250k) in innovation for non-accredited entities (AF Climate Innovation Accelerator through MIEs)</td><td></td></up>	Small grants (<\$ 250k) in innovation for non-accredited entities (AF Climate Innovation Accelerator through MIEs)	
Enhanced Direct Access (EDA): <us\$ (nie)<="" 5="" country="" m="" per="" td=""><td>Large grants (<us\$5 (nie,="" (rie,="" adaptation="" and="" country="" innovative="" m)="" mie)="" mie)<="" or="" out="" practices="" regional="" rie,="" roll="" single="" td="" to="" tools=""><td></td></us\$5></td></us\$>	Large grants (<us\$5 (nie,="" (rie,="" adaptation="" and="" country="" innovative="" m)="" mie)="" mie)<="" or="" out="" practices="" regional="" rie,="" roll="" single="" td="" to="" tools=""><td></td></us\$5>	
Project scale-up grants < US\$100 k per project (NIE)		ADAPTATION FUND

What to keep in mind- General

Concrete
adaptation
activities in the
most vulnerable
communities:

visible and tangible impacts at the local level that can be scaled up

No prescribed
sectors or
approaches:
country-driven
process that
accommodates
countries' priorities
and adaptation
reasoning

Finance the full cost of adaptation:

No co-financing requirements

50% of portfolio for Direct Access:

Total allocation for projects/ programmes submitted by MIEs cannot exceed 50% of cumulative resources

USD 20 million available per country under raised country cap

For single country projects, other grants available outside of country

New strategic emphasis on promoting locally led action

- ➤ AF was part of process for developing the **Principles for Locally Led Adaptation Action** & Board endorsed Principles for LLA in 2021
- ➤ Refers to modalities for **devolving decision making** to the lowest appropriate level:

"Giving local institutions and communities more direct access to finance and decision-making power over how adaptation actions are defined, prioritized, designed, implemented; how progress is monitored; and how success is evaluated."

(Source: Global Commission on Adaptation, 2021)

➤ AF Board will consider **funding modalities & other support** for LLA at upcoming AFB.40 Board meeting in March 2023

Enhanced Complementarity & Coherence with Other Climate Funds

Strategic engagement at Funds' secretariat and Board levels

- Joint Climate Funds Annual Dialogues & Roadmap (between AF/GCF/GEF/CIF)
- Continuous engagement among the Funds on operational matters including project portfolio, collaboration platform on results management and reporting frameworks, support for resilient COVID-19 recovery, KM & communications, and scaling up projects

AF/GEF secretariat collaboration on portfolio development matters

- GEF staff cross-support for AF portfolio quality at entry GEF staff co-review of AF projects
- Synergies in implementing complementary projects (Honduras, Samoa, Tanzania) & projects that build on earlier GEF experiences (Antigua and Barbuda, Turkmenistan)
- Joint activities and events at COPs to share knowledge on best practices

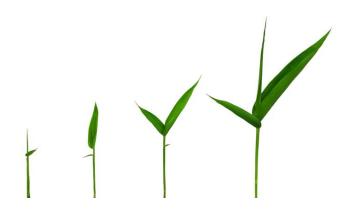

AF/GCF collaboration to enhance climate finance access

- Accreditation: AF and GCF fast-track accreditation and Re-accreditation
- Direct Access: Joint support to Community of Practice of Direct Access Entities (CPDAE)
- Project scale up: Pilot of Scaling-Up Approach between the AF and the GCF (nearly 10 projects so far)

New emphasis on scaling up of results & strategic partnerships with other adaptation funders

- ➤ More support, guidance and partnerships for incentivizing scalability and replicability of results as part of project design and implementation
- Leverage partnerships and synergies with other adaptation actors and funders for more structured approaches to scaling up
- Expand range of stakeholders & partnerships across operations to maximize support to developing countries (incl. projects, readiness, innovation, knowledge management etc.)

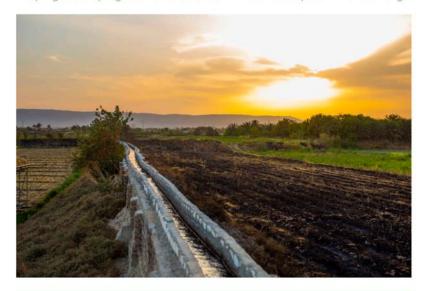

For further information

Helping developing countries build resilience and adapt to climate change
