A DECADE OF RESILIENCE BUILDING

What is the SomReP?

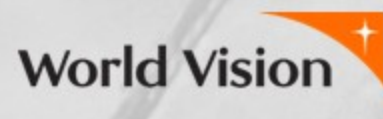

SomReP's History

- Formed after the 2011 famine as an **area-based, multi-sector, multi-actor, multi-year** program.
- NGOs came together to explore ways of being proactive in building resilience and protecting gains so people can overcome shocks.
- 8 members NGOs – **Action Against Hunger (ACF); ADRA; CARE; COOPI; DRC; Oxfam; Shaqodoon; World Vision.**
- Phase 1 (2013-2017); Phase 2 (2018-2023); **Phase 3 (2024-2029)**

Management & Innovation

Towards Inclusive Development

- Emergency response is good as it saves lives – but it only addresses short-term needs.
- What happens next? **Resilience Programming (to bridge Humanitarian to Development with Peace Nexus)!**
- **Resilience:** “the ability of communities and households to manage change, by maintaining or transforming living standards in the face of shocks or stresses – particularly recurrent drought – without compromising their long-term prospects.”
- How? By **strengthening Resilience Capabilities:**

1. Absorptive

- DRR
- Cash for Work
- Safety Nets

2. Adaptive

- Income Diversity
- Food Security Diversity
- Climate Change Adaptation

3. Transformative

- Capabilities
- Market Access
- Institutions

SomReP's Structure

SomReP Donor Advisory Group (DAG)

- Representation from each SomReP donor

SomReP Steering Committee

- Country Directors / Executive Directors from SomReP's NGO

SomReP Technical Unit (TU)

- Chief of Party
- Technical Advisors
- Program Managers
- Norther / Southern Coordinators
- Knowledge Management & Quality Assurance

- SomReP's Legal Lead Agency
- Fund Manager
- Host of the Technical Unit (TU)

SomReP's Phase III Strategy Program Participant POV

2. M&E Toolkits & Approaches

SomReP's Comprehensive M&E Toolkits

A Layered Approach to Monitoring Across Program Cycles

Routine & Strategic Assessments

1. Annual Resilience Measurement (ARM)
2. Seasonal Assessments
3. Baseline, Mid-term & Endline Evaluations
4. In-depth Assessments (thematic)

Crisis-Sensitive Tools

1. Post Emergency Response Monitoring
2. Third Party Monitoring (TPM)
3. Grievance Redress Mechanism (GRM)

Participatory & Government Engagement

1. Participatory MERL Processes
2. Joint Resilience Monitoring with Government
3. Quarterly Review Meetings (QRM)
4. Technical Working Groups (TWGs)

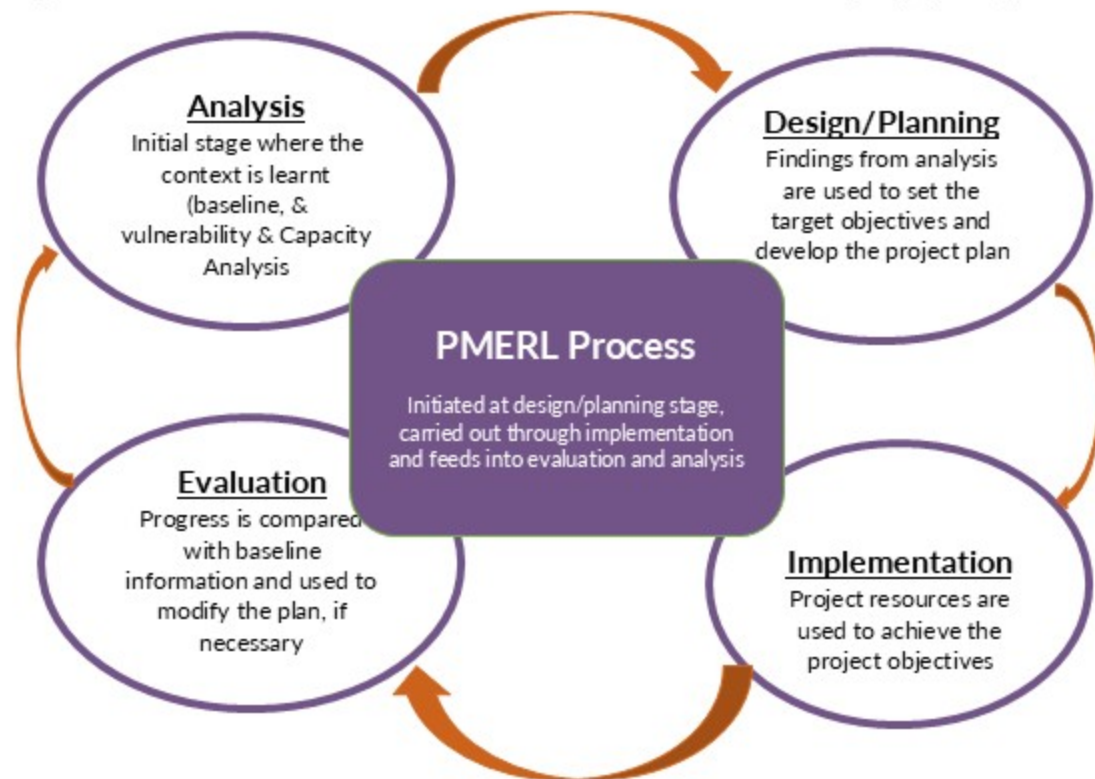

Performance Tracking

1. Semi-Annual/Annual Progress Reports
2. Performance Progress Dashboard

Community-led Monitoring through PMERL

- Through our Community-Driven Resilience (CDR) approach, **community members are essential collaborators**, actively participating in the design, execution, and monitoring of projects.
- Together with the government, periodic reviews utilizing the **Participatory Monitoring Evaluation, Reflection and Learning (PMERL) framework** offers communities a platform to express their views, ensuring our interventions remain contextually appropriate.

PMERL Course available on the Humanitarian Leadership Academy's e-Learning platform Kaya

PARTICIPATORY MONITORING EVALUATION REFLECTION AND LEARNING (PMERL)

The Participatory Monitoring Evaluation Reflection and Learning (PMERL) course will enable you to learn more about key aspects of PMERL as well as participatory methodologies and tools for implementing PMERL as one of the resilience building strategies among communities and local authorities. The course will aid you in assisting communities to monitor changes in the local context.

This course is based on CARE's 2014 Guide - Participatory Monitoring Evaluation, Reflection and Learning for Community-based Adaptation: PMERL: A revised manual for local practitioner. You may learn more at [Care Climate Change](#). In this course you will learn about the principles and methods of PMERL while building on CARE's foundational work.

COURSE SESSIONS

- ✓ Introduction to PMERL
- ✓ Why PMERL
- ✓ Steps in PMERL
- ✓ Set up a PMERL team
- ✓ Tracking PMERL activities against CAAPs
- ✓ Recording baselines and indicators
- ✓ Completing PMERL tracking template
- ✓ Analyze PMERL data
- ✓ Reflect on PMERL findings
- ✓ Additional resources

Leveraging Tech for Early Warning & Risk Mgmt

Innovation & Real-Time Monitoring to Support Climate Adaptation

1. Project Team Monitoring Visits
2. Quality Improvement Verification Exercises

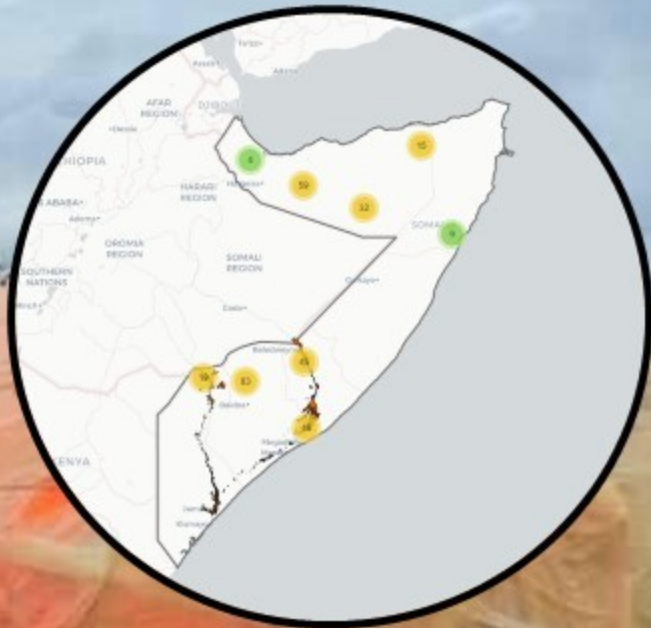

TOOL

1. Sadaal Early Warning System (digital alerts, AI-driven thresholds)
2. Multi-Hazard Monitoring System
3. Flood Monitoring Tool (real-time decision support)

CAPABILITY

1. Enables agile response to shocks.
2. Promotes adaptive management.
3. Builds trust and institutional capacity through transparency and joint action.
