Reliability is assured through standard protocols, including the instruments, procedures, methodologies, and analysis used to collect and interpret information.
- (b) Relevance: Monitoring serves the needs of its intended users. Monitoring aims to be relevant, timely, and accessible, with a complete and balanced presentation of evidence, findings, conclusions, recommendations, and limitations.
- (c) Stakeholder Engagement: Monitoring is based on meaningful Stakeholder Engagement, supported by the timely dissemination of relevant information in an accessible form. In Particular, GEF Operational Focal Points are key Stakeholders in Monitoring throughout the project and program cycles.

---

<sup>26</sup> This includes activities funded through any GEF-managed trust fund, unless otherwise decided by the LDCF/SCCF Council in response to guidance from the Conference of the Parties of the United Nations Framework Convention on Climate Change.

- (d) **Ethics:** Monitoring is carried out in accordance with pre-defined ethical standards and accountability systems in such a way that conflicts of interest are avoided, suspected violations are reported and investigated, and with due protection of the confidentiality and identity of individuals or groups that provide information in confidence.

## **Policy Requirements**
