Financial Procedures Agreements (FPA)

A set of legal documents governing the business relationship between IBRD as Trustee of the GEF Trust Fund and the GEF Agencies. These were developed based on the standard provisions applicable to the trust funds (GEF, LDCF and SCCF). They set the definitions and rules for:

- **Commitment of funds by Trustee**: Sets financial liability to Agencies including adjustments for cancellation and closed projects and fees. These are communicated via the Letters of Commitment issued on a monthly basis, as needed.

- **Transfer of funds to GEF Agency**: Initiated based on cash transfer requests by Agencies. The basis for transfer are funding availability (dependent on Agency’s approval of the projects), and frequency of the request (usually covers 3-6 months funding needs).

- **Use of funds by GEF Agency**: in accordance with Agency’s policies and procedures. Trustee is not responsible for use of funds by Agency.

- **Reflows vs. Refund from GEF Agency to the Trustee**: reflows arise from non-grant instruments, while refunds result from financial closure of projects.

- **Financial reporting by Agency** (quarterly, semi-annual and annual)
Agency reports to the Trustee capture the following information:

- Project approvals by agency, cancellation, and project closures;
- Fee cancellations, financial closure, refunds, reflows, and investment income;
- Annual financial statements, and audit reports.

To ensure data integrity, accuracy and consistency between the Trustee and the Agency records, periodically the Trustee exchanges information with the Agencies.
