

Work Program and Budget of the Independent Evaluation Office

June 2020

Presentation outline

2

1

Completed evaluations

3

The third peer review

4

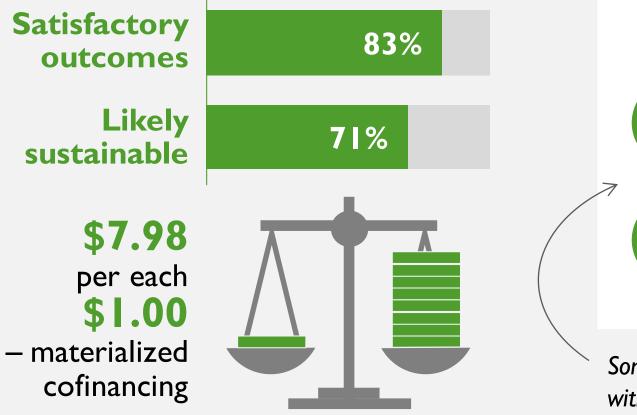

Evaluation work in progress

5

Updates on knowledge management and communications

Budget and human resources

Completed evaluations Annual Performance Report (APR) 2020

Quality of terminal evaluations

High compliance in reporting of general project information, outcomes, and monitoring

Lower compliance in reporting on implementation of social and environmental safeguards

Some evidence to show that compliance is linked with the internal guidelines of the Agency

Completed evaluations The GEF Management Action Record

Level of adoption of Council decisions on eight IEO evaluations

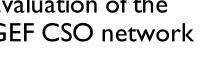

(Full agreement between the IEO and the Management on ratings for level of adoption)

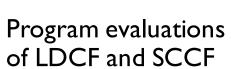

Evaluation of the GEF CSO network

Review of the GEF policy on minimum standards on environmental and social safeguards

Completed evaluations Strategic Country Cluster Evaluations

African Biomes and LDCs SCCEs – Highlights

OBJECTIVES

- Explore the factors of outcome sustainability;
- Assess GEF relevance to the key environmental challenges in the countries covered;
- Gender, resilience, fragility

SCOPE

Biomes SCCE:

453 projects in23 countries,\$1.63 billion GEF funding

LDCs SCCE:

833 projects in47 LDCs,\$3.18 billion GEF funding

METHODS

- Aggregate documents, portfolio and geospatial analyses;
- In-depth country studies purposively selected based on the aggregate analyses

Completed evaluations Strategic Country Cluster Evaluations

African Biomes and LDCs SCCEs – Highlights

SELECTED FINDINGS

Demonstrating sustainability takes time, it tends to improve with time; it depends on quality of design, which should consider post project financial sustainability as well as synergies and tradeoffs between environment and development goals, and take advantage of existing local development plans Multifocal projects scored the highest on outcomes but the lowest on sustainability (Biomes SCCE) Climate resilience is rarely addressed in other focal areas (LDC SCCE)

Third professional peer review

Review of IEO mandate, role, and performance

IEO has prepared the action plan

The review and the plan will be discussed with the Council in fall 2020

Evaluation work in progress

- Third joint GEF-UNDP SGP evaluation
- ---- Fragile and conflict-affected situations
- Evaluation of medium-sized projects
- Institutional policies and stakeholder engagement

2021

- GEF interventions in artisanal and gold mining
- International waters (fisheries and freshwater)
- Knowledge management

2020

- Results-based management system
- Innovation in the GEF: findings and lessons
- GEF support to SFM and REDD+ projects
 - Economic and social impacts of GEF support to micro-, small-, medium-size enterprises, and the informal sector
 - Agency self-evaluation systems

 Formative review of the GEF integrated approach

Knowledge management and communication update
