

GRUPO NUEVA
PESCANOVA

RESPONSIBILITY, SUSTAINABILITY & TRANSPARENCY

OUR COMMITMENT TO THE PLANET

COP25, DEC 5 2019, MADRID

The Nueva Pescanova Group is a leading Spanish multinational company in the seafood sector

2

PESCANOVA

WE FISH

70 fishing vessels
In the Southern hemisphere
7 new vessels coming up

WE TRANSFORM

25 factories in 9 countries
140,000 Tons processed

WE FARM

7,000 ha of aquaculture
production
62,000 Tons of farmed seafood

WE SELL

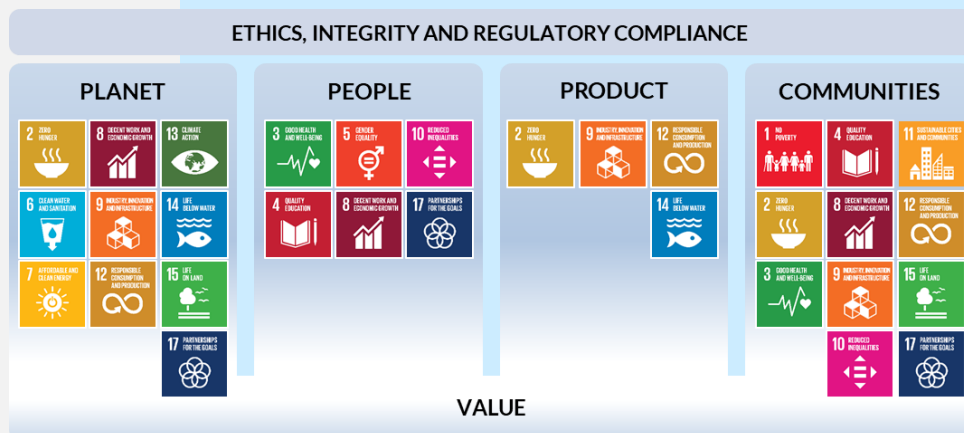

We sell in 80 countries
1,008 million euros revenue
177.000 TM Sold

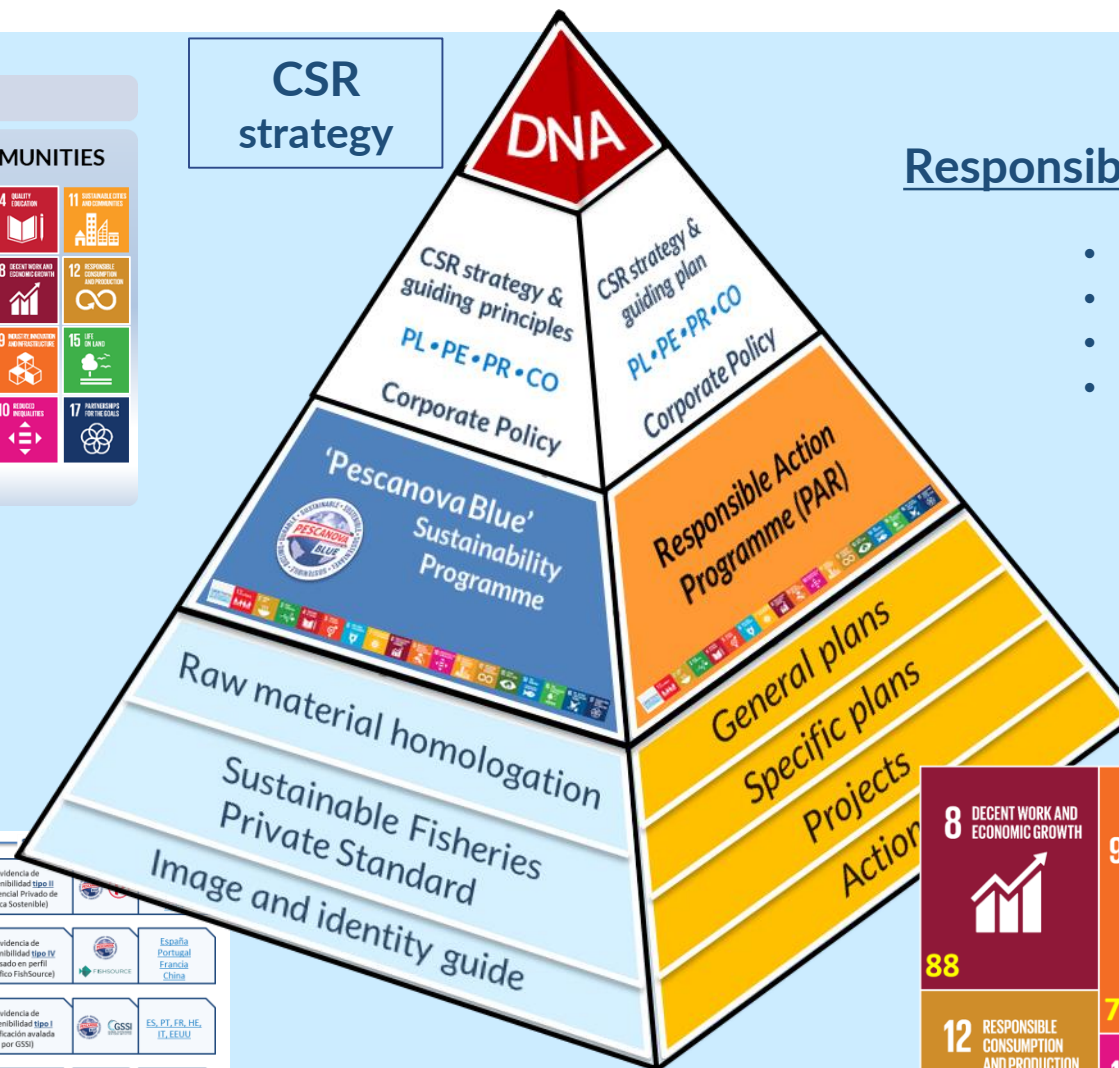

RESPONSIBLE AND SUSTAINABLE FISHING AND AQUACULTURE MANAGEMENT

We believe our first responsibility is the sustainability of natural resources and of our partner communities, whose trust we build and maintain by acting ethically and creating value.

CSR
strategy

Responsible Action Programme

- A common PLANET
- PEOPLE first
- PRODUCT excellence
- Growing together with the COMMUNITIES

Sustainability Programme

Transparency Programme

Especie	Método de captura	Área y País	Evidencia de Sostenibilidad
Merluza del Cabo Shallow-water Cape hake <i>Merluccius capensis</i>	Arrastre de fondo	Pesca FAO 47	Namibia Evidencia de Sostenibilidad tipo II (Referencial Privado de Pesca Sostenible)
Langostino banana Indian white prawn <i>Penaeus indicus</i>	Arrastre de fondo	Pesca FAO 51	Mozambique Evidencia de Sostenibilidad tipo II (basado en perfil científico FishSource)
Langostino vannamei Vannamei shrimp <i>Litopenaeus (Penaeus) vannamei</i>	Cultivo acuícola	Cultivo	Ecuador Evidencia de Sostenibilidad tipo I (certificación avalada por GSSI)
Gambón o langostino austral Argentine red shrimp <i>Litopenaeus setiferus</i>	Arrastre de fondo	Pesca FAO 41	Argentina Evidencia de Sostenibilidad tipo III (apoyado por un Proyecto de Mejora pesquera FIP)

ADAPTING FOR SUSTAINABLE DEVELOPMENT

Risks to food security in fisheries and aquaculture:

- Climate change
- Species availability and distribution
- Extreme weather and sea level rise
- Ecosystem productivity
- Political implications (rights and quotas)

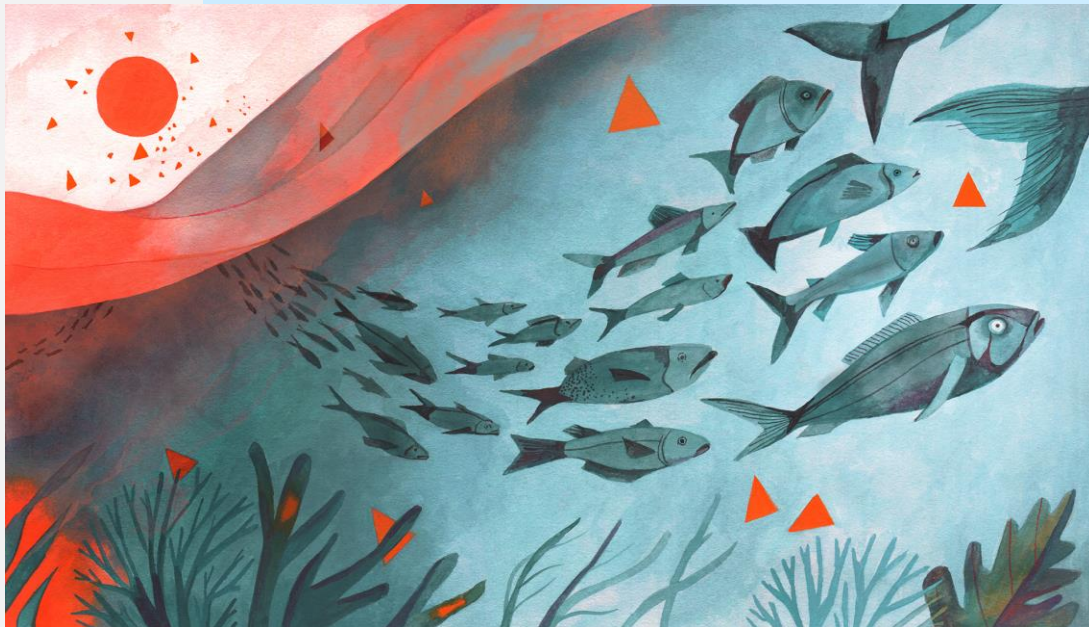

ILLUSTRATION BY LUISA RIVERA/YALE E360

Successful action is a sum of sums
We contribute with our projects
Helping managing risk

OUR CONTRIBUTION TO SUSTAINABLE DEVELOPMENT

Labour responsibility
Legal, just, decent, safe and
dignifying work

Adult Literacy Project
Voluntary on Sundays

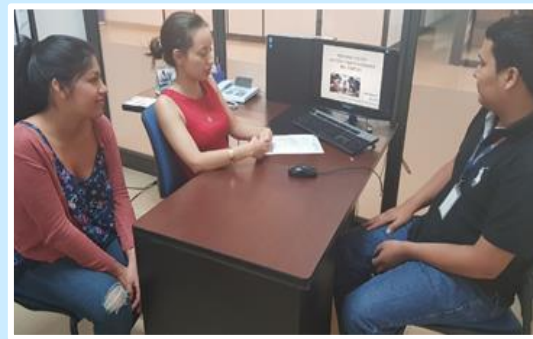

**Contribution to promote
schools and nurseries**

**Gender equality, women in
positions of responsibility**

**Knowledge transfer
and new skills**

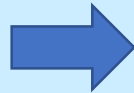

**Alliances to promote
employment and internships**

10,000 people

OUR CONTRIBUTION TO SUSTAINABLE DEVELOPMENT

New vessels

↗ Efficiency

(energy, water, fishing operation)

↘ Emissions

Eco-design, innovation
packaging and materials

Water management

Desalination + Liquid ice

Circular economy
of organic sub-products

Fishing efficiency

Design + Materials

2012 → 2018

↗ more fish per fishing day
Lighter trawl gear
Innovation in net design

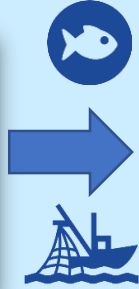

Circulate 11,200+ ton
annually into animal feed
5,900 ton fish waste
5,300 ton shrimp waste

OUR CONTRIBUTION TO SUSTAINABLE DEVELOPMENT

14 VIDA SUBMARINA

Biodiversity protection in fisheries and aquaculture

Fishing efficiency – managing gear and equipment

**Innovation in Aquaculture
Pescanova Biomarine Center**

Innovation in new seafood species – octopus

Certification of sustainable sources – wild & farmed

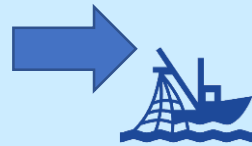

Environmental management and impacts assessment

OUR CONTRIBUTION TO SUSTAINABLE DEVELOPMENT

Fishing efficiency

Improved design and lighter gear

- Trawl gear weight from 3.0 ton to 1.4 ton
- Efficiency, ➤ Emissions

2012 → 2018 
➤ 10% less fuel consumption per ton fish
➤ Reduced 11,500 ton CO₂-eq annually

LED systems and reduced power consumption

Energy efficiency and renewables

New vessels

➤ Efficiency, ➤ Emissions
