

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

Energy Efficiency, Renewable Energy and Investment Projects

An Event Organized by Responding to Climate Change (RTCC)

December 5, 2019

10:30 - 12:30

Hall 8

GCF + GEF Pavilion

UNFCCC COP25

Climate change, pollution and energy insecurity are significant problems and addressing them requires major changes to energy infrastructures. Renewable energy technologies are essential contributors to the energy supply portfolio, as they contribute to world energy security, reduce dependency on fossil fuels, and provide opportunities for mitigating greenhouse gases. Climate-disrupting fossil fuels are being replaced by clean, climate-stabilizing and renewable sources of energy.

Speakers and Panelists

Lilian Taise da Silva Beduschi	Sustainability Director Malwee
Mr. Nelson Araya Urbina	CEO Hondu Palma
Jeff Caranto	Assistant Vice President Head, Geosciences Subsurface Group, Energy Development Corporation
Rodrigo Sluminsky	Partner Viotti & Leite Campos
Hans Magne Ådland	Head Advisor, Statkraft AS
Diana Miranda Torres	Orbia Advance Corporation MSc Process Safety Global Director
