In the absence of specific recommendations being provided by Board members to the Secretariat no later than March 22nd, 2010, a positive recommendation will be deemed to have been given for each proposal in accordance with the provisions of the Earth Fund Board Procedures document.

Following Board recommendation or deemed recommendation, it is anticipated that the Platform proposals (which could be modified following comments by the Board) will be circulated to Council for approval (30 day circulation period).

Finally, the Board will be invited to adopt a report of the meeting subsequent to their receipt of the report, which will be circulated to the Board members by email after the meeting.
