Independent Auditors' Report

International Bank for Reconstruction and Development
as Administrator of the Trust Fund for the Secretariat of the Global Environment Facility

We have audited the accompanying statement of receipts, disbursements and fund balance (the Statement) of the Trust Fund for the Secretariat of the Global Environment Facility under administration by the International Bank for Reconstruction and Development (the Administrator) for the fiscal year ended June 30, 2011. The Statement is the responsibility of the Administrator's management. Our responsibility is to express an opinion on the Statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Statement is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Administrator's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the Statement, assessing the accounting principles used and significant estimates made by the Administrator's management, as well as evaluating the overall presentation of the Statement. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 2, the Statement was prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

In our opinion, the statement of receipts, disbursements and fund balance referred to above presents fairly, in all material respects, the receipts, disbursements and fund balance of the Trust Fund for the Secretariat of the Global Environment Facility for the fiscal year ended June 30, 2011 on the basis of accounting described in Note 2.

As described in Note 13, the accompanying statement of receipts, disbursements and fund balance of the Trust Fund for the Secretariat of the Global Environment Facility for the period from March 14, 1991 (date of inception) to June 30, 2011 was not audited by us and, accordingly, we do not express an opinion on it.

NOTES TO FINANCIAL STATEMENT

June 30, 2011

All amounts expressed in U.S. dollars unless otherwise noted

Note 1 - Organization and operation of the Global Environment Facility

The Global Environment Facility (GEF) was formally established as a mechanism in 1994 by the Instrument for the Establishment of the Restructured Global Environment Facility (the Instrument). GEF provides grants and concessional financing to eligible countries in order to achieve global environmental benefits in six focal areas specified in the Instrument and its amendments, including: climate change, biological diversity, international waters, ozone layer depletion, persistent organic pollutants and land degradation.

Under the Instrument, contributions to the GEF and all other assets and receipts of the GEF are held in the Global Environment Facility Trust Fund (the GEF Trust Fund), which in accordance with the provisions of the Instrument, was started on March 16, 1995. On that date, the Global Environment Trust Fund (GET) (a funding mechanism for the GEF, established on March 14, 1991 as a pilot program) was terminated and all funds, receipts, assets and liabilities held in the GET were transferred to the GEF Trust Fund at book value. The GEF Trust Fund is administered by the International Bank for Reconstruction and Development (IBRD) as Trustee.

The Secretariat of the GEF (the Secretariat) coordinates the formulation of projects included in the annual work program, oversees their implementation, and makes certain that operational strategy and policies are followed. The Secretariat is supported administratively by IBRD but it operates in an independent manner to discharge the responsibilities assigned to it under the Instrument.

The monitoring and evaluation functions of the GEF were established in 1994 and are now performed by the GEF Evaluation Office (EO). Since 2003, the EO has operated independent of the GEF Secretariat management in the conduct of the evaluations that it undertakes, and reports directly to the GEF Council (the governing body of the GEF). The EO has the central role of ensuring the evaluation function within the GEF, of setting minimum requirements for monitoring and evaluation, of ensuring oversight of the quality of monitoring and evaluation systems on a program and project level and of sharing evaluation evidence within the GEF network.

NOTES TO FINANCIAL STATEMENT

June 30, 2011

All amounts expressed in U.S. dollars unless otherwise noted

This financial statement reports only the receipts, disbursements and fund balance of the Trust Fund for the Secretariat, including EO, of the GEF (the Trust Fund). A separate financial statement is prepared for the GEF Trust Fund. The Trust Fund has the same date of inception of March 14, 1991 as the GET (this date is hereinafter referred to as 'Inception'). The Trust Fund and the GEF Trust Fund represent only part of GEF.

IBRD performs certain administrative, accounting, financial reporting and treasury services related to the Trust Fund's activities, on behalf of the Secretariat and EO.

The Trust Fund's activities are executed by IBRD, on behalf of the Secretariat and EO. As part of its executing activities, IBRD, on behalf of the Secretariat and EO, prepares terms of reference, procures goods and services from suppliers, disburses funds and submits progress reports and audited financial reports to the GEF Council for these activities.

Note 2 - Significant accounting policies

This financial statement has been prepared on the cash receipts and disbursements basis of accounting, modified to record the share in the pooled cash and investments at fair value (modified cash basis of accounting). Accordingly, net investment income includes realized and unrealized investment income/ loss. In accordance with the provisions of the Instrument, net investment income of the Trust Fund is credited directly to the GEF Trust Fund and as such is not reflected in the Statement of Receipts, Disbursements and Fund Balance, with the exception of net investment income earned on contributions received towards the GEF Third Assembly and Associated Meetings, which was credited to the Trust Fund, in accordance with the agreement with Denmark (see Note 3).

The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (U.S. GAAP) or International Financial Reporting Standards (IFRS). Receipts, with the exception of net investment income as described above, are reported when collected (i.e., when credited to the Trust Fund) rather than when pledged/earned, and disbursements are reported when paid (i.e., when debited to the Trust Fund) rather than when incurred.

NOTES TO FINANCIAL STATEMENT

June 30, 2011

All amounts expressed in U.S. dollars unless otherwise noted

In accordance with the modified cash basis of accounting, as described above, and with the policies adopted for the administration of the Trust Fund, certain transactions are reported in the Statement of Receipts, Disbursements and Fund Balance in the period in which the transaction is credited/debited to the Trust Fund, rather than in the period to which they relate. These may include contributions not credited to the Trust Fund at the financial statement date due to timing or other reasons, repostings of disbursements in the ordinary course of business, as deemed necessary, and any refunds of previous disbursements deemed by IBRD, on behalf of the Secretariat and EO, to be ineligible in accordance with the relevant agreements.

This financial statement is not intended to be a presentation in conformity with U.S. GAAP or IFRS. Certain information pertaining to the fair value of financial instruments held in the pooled cash and investments is presented as described below.

U.S. GAAP defines fair value, establishes a consistent measurement framework and a fair value hierarchy, which is based on the quality of inputs used to measure fair value, and requires fair value measurement disclosures. It also requires that the valuation techniques used to measure fair value maximize the use of observable inputs and minimize the use of unobservable inputs. Note 4 provides further details on the fair value measurement of the pooled cash and investments.

Amounts paid into the Trust Fund, but not yet disbursed are managed by IBRD, which maintains an investment portfolio (the Pool) for all of the trust funds administered by IBRD, the International Development Association, the International Finance Corporation, the Multilateral Investment Guarantee Agency, and the International Centre for Settlement of Investment Disputes (collectively, the World Bank Group). IBRD, on behalf of the World Bank Group, maintains all trust fund assets separate and apart from the funds of the World Bank Group. The Pool is divided into sub-portfolios to which allocations are made based on fund specific investment horizons, risk tolerances and/or other eligibility requirements for trust funds with common characteristics as determined by IBRD, on behalf of the World Bank Group, in accordance with the trust fund agreements. These sub-portfolios may hold all or a portion of the instruments held by the Pool.

NOTES TO FINANCIAL STATEMENT

June 30, 2011

All amounts expressed in U.S. dollars unless otherwise noted

Generally, the Pool includes liquid financial instruments such as time deposits, money market securities, government and agency obligations, and asset-backed securities. The Pool may also include securities pledged as collateral under repurchase agreements with other counterparties and receivables from resale agreements for which it has accepted collateral. Additionally, the Pool includes derivative contracts such as currency forward contracts, currency swaps and interest rate swaps, and contracts to purchase or sell mortgage-backed securities to-be-announced (TBAs). Payables and receivables associated with the investment activities are also included in the Pool, as the Pool is accounted for under the accrual basis pursuant to U.S. GAAP.

The Pool is a trading portfolio and is reported at fair value, with gains/losses included in net investment income. The share in the pooled cash and investments represents the Trust Fund's share of the Pool's fair value at the end of each reporting period.

Certain reclassifications of the prior year's information on mortgage-backed securities TBA have been made to conform to the current year's presentation.

This financial statement is presented in U.S. dollars, which is the Trust Fund's functional and presentation currency. Transactions in currencies other than U.S. dollar are reported at the market rates of exchange in effect on the date of the transaction. At the end of each reporting period, fund balances that are not denominated in U.S. dollar are revalued at the market rate of exchange prevailing at the end of the respective reporting period. Any adjustment resulting from currency exchange rate changes is recognized as foreign currency adjustment.

Disbursements for activities executed by IBRD, on behalf of the Secretariat and EO, are made from its resources (see Note 9). These disbursements are reimbursed in by the Trust Fund to IBRD on a regular basis. To the extent that disbursements are made in currencies other than U.S. dollar, IBRD may be reimbursed a different amount due to the difference in exchange rates on various dates. Transaction gains or losses on disbursements, if any, are borne by IBRD.

The preparation of this financial statement requires management to make estimates and assumptions based upon information available as of the date of this financial statement. Actual results could differ from these estimates. Areas in which management makes estimates and assumptions in determining the amounts to be recorded include fair value of financial instruments.

NOTES TO FINANCIAL STATEMENT

June 30, 2011

All amounts expressed in U.S. dollars unless otherwise noted

Note 3 - Net investment income

Net investment income consists of the Trust Fund's allocated share of the following: interest income earned by the Pool, realized gains/losses from sales of securities and unrealized gains/losses resulting from recording the assets held by the Pool at fair value. Net investment income earned on funds held by the Trust Fund is credited directly to the GEF Trust Fund and therefore is not reflected in this financial statement, except net investment income in the amount of \$15,100 (unaudited, see Note 13) on contributions received towards the GEF Third Assembly and Associated Meetings, all of which was credited to the Trust Fund, prior to July 1, 2010, in accordance with the agreement with Denmark.

Note 4 - Fair value of financial instruments

As discussed in Note 2, the cash and investments of all trust funds administered by the World Bank Group are managed in a pooled investment portfolio. The Trust Fund's share in the Pool is not traded in any market; however, the underlying assets within the Pool are reported at fair value. All investment decisions are made and performance monitored at the Pool level. The disclosure on fair value measurement and fair value hierarchy is therefore at the Pool level. The fair value amount of the Trust Fund's share of the cash and investments in the Pool at the end of each reporting period is also disclosed.

Fair Value Measurements

IBRD, on behalf of the World Bank Group, has an established and documented process for determining fair values. Fair value is based upon quoted market prices for the same or similar securities, where available. Financial instruments for which quoted market prices are not readily available are valued based on discounted cash flow models. These models primarily use market-based or independently-sourced market parameters such as yield curves, interest rates, volatilities, foreign exchange rates and credit curves, and may incorporate unobservable inputs. Selection of these inputs involves judgment. The Pool may include financial instruments such as government and agency obligations, time deposits and money market securities, asset-backed securities, securities purchased under resale agreements and securities sold under repurchase agreements, and derivatives.

NOTES TO FINANCIAL STATEMENT

June 30, 2011

All amounts expressed in U.S. dollars unless otherwise noted

The techniques applied in determining the fair values of financial instruments are summarized below:

Government and agency obligations and asset-backed securities

Where available, quoted market prices are used to determine the fair value of government and agency obligations and asset-backed securities. For securities for which quoted market prices are not readily available, fair values are determined using model-based valuation techniques, either internally-generated or vendor supplied, that include the standard discounted cash flow method using market observable inputs such as yield curves, credit spreads, prepayment speeds, foreign exchange rates, and funding spreads.

Time deposits and money market securities

Unless quoted prices are available, time deposits and money market securities are reported at face value, which approximates fair value.

Securities purchased under resale agreements and securities sold under repurchase agreements

Securities purchased under resale agreements and securities sold under repurchase agreements are reported at face value, which approximates fair value.

Derivative contracts

Derivative contracts include currency forward contracts, currency swaps, interest rate swaps and purchases and contracts to purchase or sell TBA securities. Derivatives are valued using the standard discounted cash flow method with market observable inputs such as yield curves, foreign exchange rates, basis spreads and funding spreads.

Fair Value Hierarchy

Financial instruments representing the pooled investments for all the trust funds administered by the World Bank Group are recorded at fair value and are categorized based on the inputs to the valuation techniques as follows (in order of priority placed on the inputs):

Level 1: Financial instruments whose values are based on unadjusted quoted prices for identical instruments in active markets.

NOTES TO FINANCIAL STATEMENT

June 30, 2011

All amounts expressed in U.S. dollars unless otherwise noted

Level 2: Financial instruments whose values are based on quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; or pricing models for which all significant inputs are observable, either directly or indirectly for substantially the full term of the instrument.

Level 3: Financial instruments whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

When the inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety. Thus, a Level 3 fair value measurement of the instrument may include inputs that are observable (Level 2) and unobservable (Level 3).

As of June 30, 2011 and June 30, 2010, the Pool does not have any financial instruments measured at fair value on a non-recurring basis.

The following tables present the Pool's fair value hierarchy for financial instruments measured at fair value on a recurring basis as of June 30, 2011 and June 30, 2010. Payables and receivables associated with the investment activities and cash are not included in the fair value hierarchy tables and their carrying amounts approximate their fair values. The Trust Fund's share of the Pool's financial instruments may comprise varying proportions among the three levels.

¹Certain reclassifications of the prior year's information have been made to conform to the current year's presentation. Specifically, contracts to purchase or sell mortgage-backed securities TBA have been reclassified out of asset-backed securities into derivatives as well as payables and receivables in the Pool. The effect of the mortgage-backed securities TBA reclassification was a \$689 million decrease in asset-backed securities, a \$6 million increase in derivatives, net, and a \$683 million decrease in net payables for investments purchased. Therefore, the reclassifications had no impact on the net asset value of the Pool for the fiscal year ended June 30, 2010.

In the Pool, the carrying value of securities pledged as collateral under repurchase agreements as of June 30, 2011 and June 30, 2010 was \$751 million and \$316 million, respectively. Under resale agreements, IBRD, on behalf of the World Bank group, has not received any securities as collateral as of June 30, 2011 and June 30, 2010. During the fiscal years ended June 30, 2011 and June 30, 2010, neither transfers between levels nor changes in the fair value of Level 3 securities were significant. Therefore, no further disclosures on these items are included.

Financial risks related to the Pool

The Trust Fund is exposed to credit risk on its share of the cash and investments in the Pool. IBRD, on behalf of the World Bank Group, limits investments to those financial instruments with minimum credit ratings in the U.S markets or equivalent as follows:

- Government and agency obligations - issued or unconditionally guaranteed by government agencies rated at least AA- if denominated in a currency other than the home currency of the issuer, otherwise no rating is required. Obligations issued by an agency or instrumentality of a government, a multilateral organization or any other official entity require a minimum credit rating of AA-;
- Time deposits and money market securities - issued or guaranteed by financial institutions whose senior debt securities are rated at least A-;
- Asset-backed securities - minimum rating must be AAA; and
- Derivatives - counterparties must have a minimum rating of A+.

Trust Fund's Share of the Cash and Investments in the Pool

The Trust Fund's share of the cash and investments in the Pool, which was allocated to a sub-portfolio based on the specific investment horizons, risk tolerances and other eligibility requirements pursuant to the trust fund agreements, has a fair value of \$34,184,682 as of June 30, 2011 (\$7,987,915 as of June 30, 2010).

The following tables present investment holdings in the sub-portfolio in terms of the counterparty credit risk exposure and investment categories as of June 30, 2011 and June 30, 2010.

Note 5 - Transfers in from GEF Trust Fund for corporate budget

In accordance with the Instrument and as approved annually by the GEF Council, the GEF Trust Fund provides corporate budget funds to the Trust Fund in order to reimburse the Secretariat for administrative expenses incurred in the performance of its corporate management activities. Using these funds, the Trust Fund also reimburses IBRD for certain administrative, accounting, financial reporting and treasury services performed by IBRD, on behalf of the Secretariat and EO.

Note 6 - Evaluation office

As approved annually by the GEF Council, the GEF Trust Fund provides administrative budget to the EO in order to reimburse the EO for administrative expenses incurred in the performance of EO activities. Using these funds, the Trust Fund also reimburses IBRD for certain administrative, accounting, financial reporting and treasury services performed by IBRD, on behalf of the EO.

Since July 1, 2003, the corporate budget of the EO has been reported separately from the corporate budget of the Secretariat. Funding for EO activities prior to July 1, 2003 is included in the line item 'Transfers in from GEF Trust Fund for corporate budget', as described in Note 5. Similarly, corporate budget disbursements associated with EO activities prior to July 1, 2003 are included in the 'Corporate budget disbursements' line item.

Note 7 - Grant commitments

Funds for grant commitments, all of which were received prior to July 1, 2010, were related to the following:

	March 14, 1991 (date of inception) to June 30, 2011 (Unaudited, see Note 13)
Grant commitments	
Familiarization Seminars	1,000,000

EO disbursements	\$ 930,990	\$ 5,766,602

¹ A disaggregation of amounts in this nature that were reimbursed to IBRD prior to July 1, 2001, is not practicably determinable and therefore not presented.

Note 10 - GEF Country Support Program

During the fiscal year ended June 30, 2011, the GEF Council approved the GEF Reformed Country Support Program (Reformed CSP). The Reformed CSP will provide enhanced support to recipient countries and build their capacity to operate within the GEF, particularly with regard to resource programming. During the fiscal year ended June 30, 2011, the GEF Trust Fund transferred \$25,508,695 to the Trust Fund for Reformed CSP activities, of which \$1,121,782 were disbursed prior to June 30, 2011. Subsequent to June 30, 2011, an amount of \$23,414,771 has been transferred to the GEF Country Support Program Trust Fund to continue with the Reformed CSP activities.

Note 11 - Return to GEF Trust Fund and Donors - Unutilized funds

For the period from Inception to June 30, 2011, the unutilized funds of \$2,093,629 (Unaudited, see Note 13) relating to the GEF assembly and associated meetings were returned to the GEF Trust Fund and \$18,702 (Unaudited, see Note 13) relating to the Review of GEF Related administrative expenses in the Implementing Agencies was also returned to the donors.

All amounts expressed in U.S. dollars unless otherwise noted

Note 12 - Other receipts

Other receipts in the amount of \$24,170 and \$278,128 (Unaudited, see Note 13) received during the fiscal year ended June 30, 2011 and for the period from Inception to June 30, 2011, respectively, represent reimbursement of staff costs from the United Nations Foundation (UNF) for a staff assigned to UNF under the Bank's External Service with Pay (ESWP) program pursuant to the memorandum of agreement dated August 12, 2008, between GEF and UNF.

Note 13 - Inception to date amounts

For fiscal years beginning on or after January 1, 2008, the annual Statements of Receipts, Disbursements and Fund Balance are audited by KPMG LLP, who have expressed an unqualified audit opinion on each of the annual financial statements thereon. In addition, the Statement of Receipts, Disbursements and Fund Balance for the period from Inception to June 30, 2008 was audited by other auditors, who expressed an unqualified audit opinion thereon, dated January 12, 2009. As a result, all activities for the period from Inception to June 30, 2011 have been subject to audit by different audit firms. However, because the amounts for the period from Inception to June 30, 2008 were not audited by KPMG LLP, the cumulative amounts have been labeled 'Unaudited'.

Note 14 - Subsequent events

Management has evaluated subsequent events through December 20, 2011, the date this financial statement was available to be issued and there are no subsequent events that would require adjustment to or disclosure in this financial statement, except as disclosed in Note 10.
